Introduction

Don't just skip to the method, read the whole eBook to get a good understanding.

I am here to show you a method that has not been seen before that can earn you high amounts of money. Tired of saturated money making methods?

Well you purchased the right e-Book today because this is unsaturable and brand new also it is auto-pilot! I am going to help you get out of your unlucky days of not earning money and help you make bank!

Method

This method can be used on numerous sites but I am going to show you how it works on Etsy.

Etsy.com

Etsy is an e-commerce website focused on handmade or vintage items and supplies. So you're asking yourself, I am going to be working with a website focused on arts and crafts?! Well the answer is yes you are! Don't be scared though because all around there is much potential with this and other websites with the same concept. Etsy is a huge marketplace for handmade and vintage items. This is where the method comes into place. What you are going to do is sell "Printable Items" here is a page which will help you understand what you are going to be selling.

- <https://www.etsy.com/shop/simplyprintable>

Now they do it professionally and do a lot of work. We will be doing not as much work and offering different things. The easiest way to go in my preference is creating "Printable Quotes" all you really have to do is create around 2 or 3 quotes focused around one concept for example quotes about "Happiness". I suggest making your own well thought quotes because it will lead to good reviews and more sales.

What are these "Printable Quotes" I am going to be selling?

It literally sounds like what it is. Quote's that you print out from the internet.

But I don't know how to use photoshop?

That's fine I find a perfect site to help you out with this.

- *If you want to do this all right I suggest reading and doing what this website tells you. The best part is all the items are free so you don't need to pay for anything.*
- *After you are done reading you should have a good idea on how to make it. You are not limited to only making "Quotes" you can do "Invitations" for parties and even weddings. These are not products you are mailing out. These are digital downloads and make sure the put that in your description for your product. The quotes are easier because you have them made and they don't require a fancy background, just text with a nice fancy font on page.*

Here is a great example in which you can see this. -

- *He put a nice frame which you can find an online template on and placed his image in it. Don't worry it's not real so you don't have to actually buy a frame. It's all photoshopped!*

-

- *The invitations are worth more because they are custom made and you have to take like 15 minutes to make it. But that's all! You are provided with all the information to fill out from the client which they want you to put on the invitation and all you have to do is put it on. They of course will need to see the template which will lead to sales. You can google*

“Printable Invitations” and make your own from there. Or you can hire someone from HF graphics or fiverrr to do it for you if you want something professional looking.

- ***You don’t need to just pick invitations or quotes to make there is a whole market of digital downloads, the more unique it is the more money you will get in your pockets.***

Set Up

I highly recommend Etsy for this but the only downside is to be a seller you have to link your debit or credit card.

But do not worry at all because there are many other sites in which this will work perfectly, Etsy is just probably the one of the largest ones and will land you the most sales if possible.

You now have a good idea of the method but I will now teach you how to do it step by step.

Note this method is not specifically for Etsy, there are other big marketplaces in which this will work well with. I will be linking some at the bottom of the page.

- ***First thing you want to do is head over to the site you are going to be using, for this instance I would be using Etsy.***
- ***Then you are going to register on your site.***
- ***You are then going to sell your product / in this instance you are going to want to open an Etsy shop with the following link.***
- ***<https://www.etsy.com/sell/>***
- ***Name your shop or product name something that matches what you are going to sell so for this case you will want to put something like “Lovely Printables” if you are going to sell quotes about love, basically name to match your product. Also if you want to get more people to view your page, place more keywords in your title for example. Title : Lovely***

Printables, Printable Quote, Quote, Lovely Quotes, Love Quotes. Once someone looks up one of those words you should be higher among the list of people with similar titles or titles with the same keywords.

- ***Upload your file to the website. The file should include about three other quotes similar to your preview picture also. Or the quote could just be your preview picture. You're preview picture should be the best quote to make people buy. "If my quotes my preview picture why would they buy?" Well because many of these users don't know how to open photoshop that's why. Also they "think" it is a lot of hard work to create what you did. If you went on the censationalgirls link you should see that you're quote should be on a highresolution.jpg which you can download on that site. When the client prints it they will see the product nice and perfect.***
- ***You're description should look nice, long and good. Something like this***
- ***"This beautiful printable design was written by hand with an easy-going modern cursive!"***

This listing is for an INSTANT DOWNLOAD of both the PDF and JPEG files of this artwork.

Dimensions: 8x10 inches. If you would like another size, let me know in the "note to seller" when checking out.

Colors: As shown in the photo. If you would like different color(s), select from the color chart and let me know in the "note to seller" when checking out. There is NO extra fee for color changes on this design!

Here's how it works:

- ***Purchase this listing***

- *After payment is confirmed you will be taken to the download page, and an email will be sent to you with your download link*
- *Click “Download”, save the file to your computer, print, and enjoy!*

Please let me know if you have any questions about or problems with your download!

**Digital file – no physical item will be sent or mailed* “*

- *Of course this isn’t hand written it’s just written in a fancy font which makes the buyer think its hand written. Don’t use this description word for word though because if potential customers see this on many products they are going to smell something fishy.*
- *Price – for the quotes you can sell them at around \$4 to \$5 a piece. If you are willing to do custom quotes those go for higher prices. Invitations if you want to go for around \$30 - \$50. Because they are “custom made”.*
- *The pre-made quotes are literally auto-pilot because once you create them all you do is sell them and the buyer would get an email with the file to download.*
- *(DON’T FORGET TO READ THE CENSATIONAL GIRL TUTORIAL THAT’S HOW YOU MAKE YOUR PRODUCT)*
- *Finally post you’re item up.*

I hope you found the method unique and nice, it has the potential to earn you a lot.
