Getting Free BF3 Limited Keys

Introduction –

Today, I'm going to show you how to get unlimited FREE battlefield 3 limited edition

Getting Started –

WARNING ~ Make a new email each time

Following this example, make new emails as follows, john.doe@gmail.com
So name.surname@hotmail.com.

1) Go to the EA support section found here:

https://help.ea.com/connect-with-us

(Choose Local EA website same as your country)

2) Next, bring up a story that you bought the game for someone; personally, I like the 'I bought it for my son' story as it shows you're not doing it for personal gain.

3) When he asks for a code give him a random string of 20 characters. Example: AHJ5H-LOJD3-MDHJ4-22ANF-CJ462

Notes:

If you are told that you have to contact the warranty section, tell you have already called them before and they directed you here. The same point applies if you are being asked to contact the retail store.

If they ask for a picture of the manual, then just edit the picture in the zip, or alternatively use the one I provided. (Simply put your code in, find a similar font, add a couple of blurs, turn down the opacity and set blending to overlay)

Same goes for the receipt; use a content aware brush to take out the area I edited.

Some tips: Origin Error:

– Key is invalid

– Key is banned

– Key is not from your zone

– Key is partially effaced
– For other EA Games, that's the same method. Going SE EA Support, and it works 90% of the time.
–
– You can use the receipt of order, erasing BF3 Line and putting the name of the game

you want.

- For other proofs, you can, with Photoshop, create a fake license, Google it ;)
