

CPA LEGEND

Thanks for buying CPA Legend. All information inside this document is for educational purposes only and should be treated as such. You do not have the right to share or resell this ebook at any time.

I learned 2 methods in particular while I was leader of a small skype community of monetizers, and decided to write them down. We started out as an Adsense ring, earning a decent buck when I started exploring other ways of monetizing.

Requirements

- A valid email address
- An account on CPALead or any similar website

- An account with FileIce, Sharecash or any similar website
- A few moments of your time

- Create 3 Word documents, or WordPad documents for that matter, which you name **Verification1, Verification2, Verification3**; Inside you will write: **Thank you for completing this survey. Your verification code is: #34342**

- Upload all 3 files to <http://www.speedyshare.com/> or <https://www.mediafire.com/> depending on which one you prefer.

- Log in to your CPALead account and use **File Locker** to generate 3 download links that are locked by surveys.

- Now head over to a job/gig site similar to **Craigslist** but there are more specific micro job websites like <http://coinworker.com/> where users are willing to complete your surveys for a small compensation (10 % of the commission you're getting).

- Once on Craigslist write an article with a title like **JOB OFFER - Be the first to test our SURVEY SYSTEM! Easy 10 minute Job!**

Message: **Hello,**

We are looking for participants who are happy to make a quick buck. Verification will only take 10-15 minutes of your time. We'll send you a \$300 check if we decide to accept your application for the testing position. All you need to do is complete 1-3 surveys. If all goes smoothly then we might decide

to hire you for future testing! So if you want to make some quick money then send us an email so you can get started!

Now that's it for the day. Take a break and play the waiting game.

- After you've waited long enough, check your email inbox, it will be filled with responses from Craigslist. Send them a message similar to this message:

Thank you for considering the position. We can begin your test immediately. We will first provide you with our companies URL. This will forward you to a download for a text file locked by a survey. All you have to do is complete the survey in order to collect the pin. What we have to do is verify the pin, so we need you to reply to this email with it. We will provide you with 4 pages which we are testing for built-in app incentives.

Please reply to this email with the pins for the following pages:

URL 1

URL 2

URL 3

Thank you,

<Name> - <Company>.

This should create a semi auto pilot solid \$30 every day.

Doing something similar with PPD is only a really viable method with micro job websites.

Start out by creating one or multiple text documents and write a pin inside (In example: #2214) and upload this to FileIce (Or similar program).

Head over to one of the links listed here:

- <https://microworkers.com/>
- <http://www.clickchores.com/>
- <http://www.zeerk.com/>

Any other website of this type will do, our goal is to start a campaign for a micro job.

Job name: **Complete a survey, 5-10 minutes of work \$0.50 very easy!**

Message: **Hello,**

I am willing to pay participants \$0.50 for completing a very easy task. All you need to do is complete a survey which will not take longer than 10 minutes. The survey unlocks a text file which holds a pin which you will have to tell me. So please complete the survey, and reply to me with the pin to get your payment of \$0.50

<Link>

<Name>

Now all you do is wait for people to complete your surveys, and be polite and pay them for their service. You're getting a larger compensation.

That's alot of money waiting for you!
