CPA MAGIC

Welcome to CPA Magic my name is Psychedelic from HF and this is my short but unique method of earning quick money through CPA Networks. This method was made up by me and me ALONE! So, lets get to it shall we…
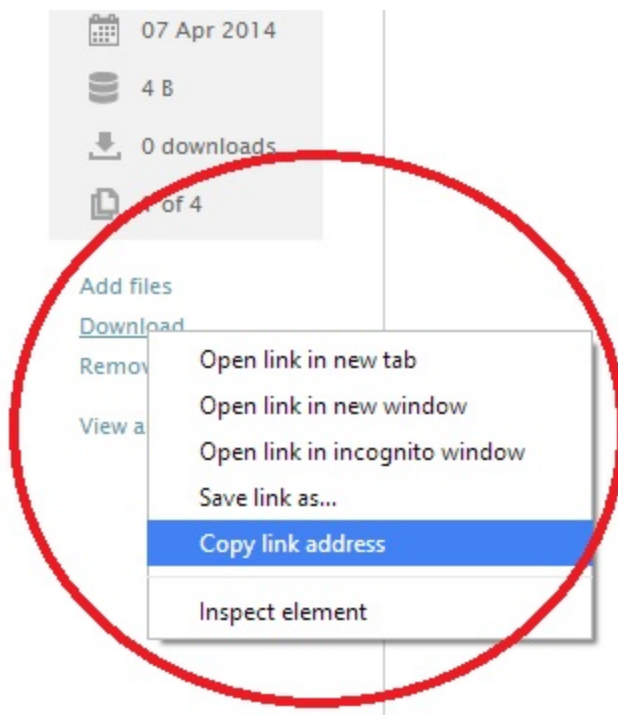

_____

Getting Started

_____

First of all let's talk about this method. The point is to find workers to test your "Survey System." That's it! Little to no work is involved besides copy/pasting. To start off you will need:

- CPALEAD Account (or any other CPA Network but this one is recommended.)
- Gmail Account (with your or a fake name.)
- Minor SEing Skills if ever needed.
- 24 Hours of Patience.

That's all you need to get started. :)

The Setup

_____

Create a text file on your desktop and name it "Pin #1" in it type 4 random numbers, save it. Make 4 other files like this with different numbers in each. Upload them all to GE.TT and Copy the download links:

Login to CPALead and click on "File Locker" and fill in the info. In URL put the link you copied from PIN #1 Ge.tt. Repeat this 3 more times. Now you should have 4 links to files locked by surveys. Now head over to a job/gig website (Craigslist) and create a post like this:

Hello,
 We are a Incentive CPA company that is looking for participants who would like to make quick cash. We need our system to be tested on several participants to make sure that all is in check with the system. This will literally take about 10-20 minutes of your time; Reward: we'll send you a $300 check for the testing position. This requires no experience; and you can do it from the comfort of your home. All you need is complete 1-4 surveys. If all goes smoothly with you; then we may decide to hire you for future testing; again, under the same terms. So; if you want to make some quick money; then send us an email; so you can get started!

Don't forget to give it an appealing title:

$300 REWARD! TEST our Survey system! 10-15 minutes of work.

The Waiting Game

Don't worry this game is fun, because you relax, sleep, etc. Then you check your email and BAM! :

Now just respond to all of them with this:

Hello,
 Thank you for considering the position. We can begin the testing with you immediately. Basically, what we will do is provide you with our companies URL. This will lead to a download for a text file locked by a survey.
Once you complete it you will receive a pin. What we need to do is to make sure that the pin code we send you matches with the one in our system. So you will take that pin reply to this email with it. You will be testing 4 of our websites for us. We are basically testing our survey system for built-in app incentives.

Please reply to this email with the pins for the following links:

Thank you,

[Name on email here] - CPAL Team.

That's about it! Just keep responding with that and you'll average about $10 every 4 hours. :)
