Methods that you'll find in this ebook

1 – AlexaMaster method

2 – Crakrevenue method

3 – G2A Method

AlexaMaster Method

Okay so let's start, this method requires a decent PC (due to VirtualBox requirement) or multiple PC's (more PC you have more links you'll be able to open so more money you'll make).

The website where we'll be working on is called Alexa Master, the key of this page is that has an Auto Surf method (without having to upgrade the account or something like that) to start with this you'll follow those steps:

1- Register on Alexa Master:

<http://system.alexamaster.com/index.php?Master=9833>

2- **Unblock Pop-ups (I use Mozilla but I guess you can use Chrome too) here's how to do it:**

<http://www.wikihow.com/Allow-Pop%E2%80%93ups>

3- **Install Alexa Master plugin:**

Go to Chrome web store (type it on google) and on the search field type **Alexa traffic rank** and search this one:

- 4- Once you have done all this, head to Auto-Surf (do not open more than 1 tab per computer)

- 5- Now just let the tab alone and you'll be earning points (then you'll be able to redeem points for money), but this does not end here, the trick is that you can run this on multiple PCs or on other **virtualbox machines** so we'll do the following

- 6- Download virtualbox here:
<http://download.virtualbox.org/virtualbox/4.3.20/VirtualBox-4.3.20-96997-Win.exe>
- 7- Download XP ISO here:
<https://mega.co.nz/#!2EwEHa6T!8HePWO6QaRLqOzMzhm68oiliMaopy0L-4QOYgNCx9TA>
- 8- Repeat the process on the virtual box machines and make \$\$\$
(Here's a tutorial on how to install XP on VirtualBox:
https://www.youtube.com/watch?v=DeGRIWwd_Ao)

9- As final step we'll need to set up an VPN for every Virtual-Box Machine. The VPN that we'll be using (its free) its called CyberGhost (you can find others VPN's on HackForums)

Download CyberGhost here:

<http://www.cyberghostvpn.com/en/download/windows>

Here's a guide on how to use it:

If CyberGhost is not working try to use HotSpot Shield VPN:

Crakrevenue Method

INTRODUCTION

Okay so first of all I need to say that this method requires a good time to set up (its not something that you do in 10 minutes and you see money coming it requires a bit more so don't be lazy and be like "I'll do it later") If you put effort once you set up you'll be making money very soon. Also you'll see that the method is totally Autopilot.

referral link

Now we'll see how we can make profit from this referral link

FIRST TRAFFIC METHOD

Now we will learn how to generate some traffic to our referral link. We will be basically using two methods. The first method will be, using Reddit and 4Chan (you can use also Pornhub forums or xHamster, but the most profitable thing is that you use the 2 first or search your own one site to spread it well). Register there and make a new post, containing a picture of a hot girl. Then put your link in the post along with something like: streaming right now guys, check my webcam then pm me your name so i can add you in a private webcam room <3. It will get a lot of guys to your link and they will also register to your website. Remember, each register is worth 2.5\$ so you only need 20 registered users and you got yourself 50\$. This method generates you a lot of traffic, but isn't really autopilot. But it is definitely worth doing.

SECOND TRAFFIC METHOD

The second method we will be using needs a bit more explaining. We will be using sexting forums, like kiksexting.com, sextingforum.net, snapchatgirls.com,... So first of all, you can register to these forums. Now what you will need to do, is, you will have to upload a sexy avatar. Just google for some naked girls, put them as your avatar and you are good to go. Now we will make our post. You can just copy and paste the same post in to all of the sections of the forum.

Making the post

First of all, the title. Your title should attract the horny people that are registered on sexting forums. You should try something like »19F, sending nudes, horny and lonely« or something along these lines, you get the point.

In the post write something similar to »hey guys, soooo horny right now, i am currently filming myself on my webcam, come check me out and sign up for free <3 then pm me your username to get into the private webcam room and also get my kik & snapchat <3«.

And below this text you will put a picture of a »video« that will have hyperlink in it, connecting to your referral link to webcam offer sign up (getting you the 2.5\$).

To do this, you need to get another sexy picture, a full naked body works best. And you also need a »play video« button. Do a simple google search and choose the one you like. Now all you need to do is put the »play« button into the picture. I am pretty basic here, i use MS Paint.

Your »video« should look something like this.

Now put your referral link as a hyperlink in the picture, so if a person clicks to »play« the video, they will actually click your referral link.

Now you are ready to post your thread. After you do this, keep making these posts on different topics and different forums. You can just copy and paste them if you are lazy. You can use this on chatrooms also, the idea is that people register with your referral link so it does not matter where you get the people, just get them (also Im 100% sure that you can find some websites that are not saturated and you can make this even easier)

The most important thing on this method is to not be lazy and be like "I'll do it later, now I don't want to do this", the real people that is in love with making money and love earning money will not answer or think like that and will try and do whatever they need to earn money because any of those methods can boost you to make a good income and develop your own methods.

G2A METHOD

G2A Goldmine is an innovative profit generator. It is fully integrated with G2A.COM, one of the leading games and software selling platforms. The money you are to earn is based on purchases made in the G2A shop using your 'Reflinks' or discount coupons.

It is simple as pie. Each product on G2A.COM includes some information about how much you can earn by recommending it.

If someone clicks on your reflink and after some time makes a purchase, the cookies will make sure that you receive the amount specified on the product page on the very day Person A placed the order. is thus on level 1 relation to you as he or she made the purchase directly thanks to your reflink.

How does it work? Think about it for a second. Let's say you have 400 friends (either in real or virtual world on such social media portals like Facebook, Tumblr or Twitter) and just 5% of them regularly buy games. Those 20 people are the key ones since they can earn money for you each time they purchase a new title. But that is not all. Consider what can happen if your friends start recommending Goldmine to others. If only they invite 20 people each your commission will grow to 400people!

Does that sound good enough? That's what we call the strength of unity when everybody can benefit equally

That's an example of how easy is to make money once you put a bit of work on it.

The screenshot shows a G2A user profile interface. At the top, there's a 'Your reflinks' section with a dropdown menu showing a URL and buttons for 'Copy Reflink' and 'Edit'. Below this is a user profile card with a cartoon character, a cookie icon, and the number '28971'. To the right of the profile is a table with three columns: 'Level', 'Profit', and 'People'. The table lists three levels with their respective profit and number of people. Below the table, there's a 'G2A Wallet Available Balance' of € 122.37 and a 'Total profit' of ~ € 701.12. There are also 'Pay out' and 'Donate' buttons.

	Profit	People
Level 1	~ €426,22	822
Level 2	~ €187,78	322
Level 3	~ €87,12	192

G2A Wallet Available Balance: € 122.37
Total profit: ~ € 701.12

Buttons: Pay out, Donate

Think for a moment if you know a:

- Youtuber?
- Blogger?
- Website admin?
- Message board moderator?
- Streamer?
- Website editor?
- Someone who has a wide range of viewers?

They are the Big Fish! Muster the courage... Level 1 relation remember? If you manage to convince such a popular person with lots of subscribers/viewers, you will earn 60% of their Goldmine income. Level 1 relation, remember Or maybe this person is your friend's friend? Tell him or her about Goldmine and make the connection work for you. In this case you will earn 40% of what the Big Fish earns. Level 2 relation if you remember.

Ok now all must be wondering how to make money from G2A because we need to sell their games and we have no idea who will buy the games too. We can simply make sales by signing up to game forums but it will take lots of time. So the easiest way is FB groups because we can get join instantly and also cover a lot of people. So here is the method.

1. First is using facebook, we just need to join on different kinds of groups and post our Links there. Remember that you must be friendly to them, find specific post on each group related to your concerns the add a comment with you links.
2. Using Twitter, you must have more followers to have many sales. Tweet something like this " A big discount of SIMS, grab it now" or "50% discounts on any PC games"..
3. The most common one, join in any forums, money making forum, community forum, and games forum, post your link there something like this, "earn money while selling games visit this link for more information
