Let's begin!

Step 1

This is perfect for you if you just want to run a computer program and have loads of money come in your hands.

What is Hitleap Viewer?

Hitleap is a traffic exchange service, delivering free traffic to any website, on-demand.

They help you increase your website traffic, rankings, and more.

Their affiliate program lets you earn cash and traffic commissions of up to 50%.

Step 2

We're 50% done with this tutorial.

What is Adfoc.us?

AdFocus is a free **short URL** redirection service with a twist. Get paid for links you share on the Internet. You can place links on your website, forums, and more!

Alternative Adfoc.us website:
(Click on picture to navigate to website)

Final Steps

- 1- Go to Adfoc.us from [here](#) and shorten random links.
- 2- Go to “Buy” tab at the top in hitleap and purchase the premium (NOT PREMIUM LITE). This step is important to not get banned on Adfoc.us and it will boost your earnings way up to the sky. (THIS IS OPTIONAL BUT VERY RECOMMENDED)
- 3- Go to Hitleap and press on “My websites” tab at the top.
- 4- Press on “ADD NEW WEBSITE” and paste the links your shortened there. (put each link 5 times, so you’ll have 3 links at the end)
- 5- Duration from 12-17 works best for me
- 6- Now go to “Traffic Exchange” tab at the top and Press start.

You are now set, go play some games, sleep or do something while it gets your money.

NOTE: If you’re not making about \$140 per week (you should don’t worry) don’t get disappointed and say the method sucks because it is fully autopilot and can be left in the background for you to do other stuff. No need to do anything, no doing surveys, offers, no nothing.

Just sit back and enjoy life.
