Method 1:

www.qmee.com

Referral link to help me out: www.qm.ee/CEF3040F
Sign up, and download their browser extension. When you search on Google, it'll give you some links to click on the left side of your screen for like \$0.06 and stuff. Just use this and occasionally when you see links, just click them and that money piles up!

Today I cashed out \$1.93 from this.

www.prntscr.com/90fdy0

Each referral you get, and they cash-out to their PayPal, you will earn an additional \$1.00 for yourself.

This is a great method to earn a few extra dollars to get you started.

Method 2:

www.shoemoney.net

This method is pretty simple, and you will earn \$1.00 for a small bit of your time. You want to sign up, and then watch the video. You can just let it play while you do something else. They should ask you to share something on Facebook (you can delete it after), and verify it by clicking their “verify” button. Then they should ask you to sign into PayPal, or continue the course.

You want to sign into PayPal, and in less than 1 minute, you will have \$1.00 sent to your PayPal. And you are done!

Method 3:

www.interwrk.com

If you want to help me, sign up here:

www.interwrk.com/?affID=18408&campaignID=1

You need Firefox for this one. Just download it, you won't even have to use it, even if you use Chrome, just download Firefox. Sign up on Interwrk, and download their tool bar. Every day you can earn \$0.02, and over time, it can increase up to \$0.20 a day, for doing no work!

Just leave your Firefox open!

You can refer your friends for \$0.25 I believe as well!

This is just basically auto-pilot!

Method 4:

www.freeeats.com

You just sign up on here with your number, and you are given \$1.00 just for registering! Now every text they may send you, you will earn \$0.25 or more. This is autopilot money! Short method for this one, as it's super simple!

Method 5:

www.1q.com

You just sign up, download their app. Every question they ask you, you can either earn \$0.25 or \$0.50! It's awesome! You can even refer friends and I believe you will earn \$0.25 for each friend!

Method 6:

www.g2a.com

This is a pretty known one, you just buy cheap game keys and serial codes here, and sell them on eBay for higher!

It's actually profitable, even though it's common. Just find a game that is not too saturated to sell!

Just try to get a good rating on eBay to increase your sales!

Method 7: Graphics Design

This method is self explanatory. If you are good at Photoshop, sell your artwork! Everyone needs artwork! Personally, I am terrible at GFX, so I cannot do this, but I buy artwork from other good GFX artists all the time! Sell YouTube Banners, Avatars, Thread designs, and more! You can make a killing off of your talents like this!

Method 8: Homework For Money

Are you good at English, or Math, or some other topic? Sell your service! I paid someone to do a 5 page paper for me, and paid \$35 for it! It's insane how much money you can make. A lot of lazy people are on HackForums, or other forums, and you can make loads of money off of them.

Well, that's it for now! If you bought the premium version, the second version of this eBook will be discounted for you.

If you enjoyed this, and made some fucking money, leave a vouch for me. I'd appreciate it.
