**In this eBook you will get:**

- 1. Friends way to get fans (additional free)**
- 2. Auto way to get fans (my own, what you paid for)**

Now, Lets talk about the method. This method consists of two main steps.

**1<sup>st</sup>.** Having a account with 100-200 friends to start with. (You can start with your own account or make another one and start)

Now that you have the account ready, Make the page about your niche, (saturated or unsaturated that's up to you). And give a good description of about it, name it well enough to be spotted among 100's of other pages.

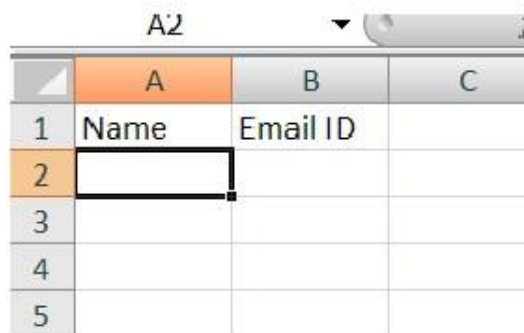

Now that you have the page ready and the account with 100's of friends ready, lets Begin!

Now, Get yourself an email extractor (free would be available on internet, just search around) or buy one if you want everything to be super fast (I am not naming any extractors, because I do not endorse them or want you to feel am generating any kinds of sales).

Now run the generator and get all the emails which are generated export or save them in a .txt file in your software you use ☺.

Now I am going to tell you how to get 100's of facebook friends (to promote your page later by them) everyday. It will take 2 mins of yours.

Open an excel doc. And put "Name" in first column and "E-mail" in 2<sup>nd</sup> column. Like this:

	A	B	C
1	Name	Email ID	
2			
3			
4			
5			

	A	B
1	Name	Email
2		
3		
4		
5		
6		

 Cut  
 Copy  
 Paste  
 Paste Special

Now copy all your copied emails from the text file by pressing Ctrl+A and Ctrl+C and Paste them in the email column as shown above.

**You can leave the 'Name' column blank.**

Your excel file will look as follows:

	A	B	C	D
1	Name	Email ID		
2			F.com	
3			m	
4			oo.com	
5			iffmail.com	
6			ty.com	
7			ail.com	
8			F.com	

Save the file as shown below!

File name:	4000_Email_IDs	▼
Save as type:	CSV (Comma delimited)	▼
		<input type="button" value="Save"/> <input type="button" value="Cancel"/>

**Congrats!** You have finally made 4000 emails (or whatever the number of emails you extracted). **Was it difficult? I guess not. Your 60% work is over,** now you may do this step over and over. It might be boring, but remember your goal, 1k fans in just one day and 50k in 1 month is not a small thing. All the steps above would have taken, I guess 20mins?

Now I am going to tell you how to upload this file to facebook and add friends! In order to add hundreds of friends daily. Log in into your facebook account and click on 'home' option.

Click on friends tab and then on 'Find friends' tab and something like this will appear.

Now click on upload contact file and browse your .CSV excel file and start uploading.

A screenshot of the Facebook 'Find People You Email' interface. At the top, there is a header with a globe icon, the text 'Find People You Email', and a link 'Upload Contact File'. Below the header, a message states: 'Searching your email account is the fastest way to find your friends on Facebook.' The main form contains two input fields: 'Your Email:' and 'Email Password:'. Below these fields is a blue button labeled 'Find Friends'. At the bottom, there is a lock icon and the text 'Facebook will not store your password. Learn More.'

Now once you are **done uploading**, all the emails holders account will appear and there will be an option to select all of them and add as a friend. Now from 4000+ emails, at least 1000+ will be available to select and send a friend request to. Send them all a friend request ( at least 500+ will accept). And there we go. You have added so many friends in 30mins which would have taken you months to do the same. Repeat the method to get more friends and hence more likes.

Now send them the page suggestion and they will like it if they are your friends. First 100 likes will come in about 1 hour or so. This is just a kick start that's needed to make other people take interest in your page.

**This above method may have already been used by some people, but its free so, no worries!**

# **THIS IS MY METHOD! THIS IS WHAT YOU PAID FOR!**

**This part is to get more and more fans by spamming around easily. It's easy and very very fast to get fans. Good thing is, it's got nothing to do with step 1 ;).**

**For this, you will need, 1-2 accounts (depending upon niche and other factors). Make another account on facebook, its free anyways ;) or borrow your friends account.**

## **Let's get started!**

Inside my eBook, you will get the method to effectively use the existing pages on Facebook to your benefit, it's like, using other people to get you the audience you need.

Where's the proof? What does this method involve?

Ok, here you go. So, this method is all about using all the well renowned pages to your benefit, by getting their fans to your page. How do you do that?

Simple, you make a facebook page about your niche (saturated or unsaturated niche, that's up to you), now, next step is to make it descriptive, make it look as legit and full of pictures (5-10 pics) about your niche.

Next thing is to go on the search menu of facebook and type words related to your niche, for example, if your niche is about a tv show character type in the name of the character, you will see something like this:

**Remember, I am using a fake girls account. But I am going to give proof of it working with boys account too. ;)**

As you can see, this is just an example, now, go to that page, and see his latest updates, and write something nice about your page for example “Like “you niche name” to get updates from him/her/this/that”

You are 90% done. Now, if your page is appealing enough, it will get likes, but what if it doesn't?

What's in it, that we already don't know about?

Hahah! You must be wondering, you are fooled or this is a joke, NO WAYS!

This method is personally developed to the next level by me. Its not over yet. In my eBook, I will show you how to get people to like your page, when you post on someone else's photo. The main trick lies here.

What is the trick? Where's the proof?

Wait, I will give you Not 1, not 2 but 3. I will prove it 3 times RIGHT NOW!

Why 3 times?

Because it will explain about inactive posts, semi-active posts and active posts:

When you post on Inactive post:

## *HOW do I know its an inactive post?*

Well, this was posted by the page user 17 hours ago. Almost a day ago. People don't look at post which are a day old.

Now from this inactive post I got this:

The screenshot shows a Facebook post by **Chris Y. Lindsay Diaz** with the text "hahahaha!!". It has 41 minutes ago timestamp and a "Like" button. Below the post are several comments from other users, including **Trenton Johnson**, **Landázuri Rouse**, **Donna Sims**, **Gloria Mabel Morinigo**, **Rebecca Mendez**, **Carrie Anne Grover**, **Mari Fulgium**, and **Pablo Torres Daza**. A comment by **Donna Sims** is highlighted with a black box and a red circle around the text "3,484 like this". An arrow points from the text "my inactive post after 30 mins. still gets 4 likes." to the "Like" button of the post.

Laurie Metcalfe is hilarious as a Texas Christian lady. I know some really similar characters in Georgia and Alabama and North Carolina.

**Now once this is done, you fanpage should look like this!**

**This is my page's admin panel ;)! [ALL TARGETED AUDIENCE]!**

**Now, for these likes to keep coming around you gotta keep posting about your page, after 2-3 post of other people on the same photo that you are posting on.  
I did like 4 posts to get those 115 likes! Nothing at all! No hard work, just Ctrl+V every time!**

**The more pages you work on the more fans you get. I worked on 5 pages everyday and got 3k targeted fans in one week!**

**Thank you!  
Good luck getting fans! ☺**
