Welcome to Fiverr \$297 method

Hey guys, before I begin, I would just like to thank you for purchasing this Fiverr guide. You have made the right decision in doing so. This Fiverr guide is **COMPLETELY DIFFERENT** from other guides out there. There is no selling social media likes, followers, views etc for \$5 while outsourcing it for \$1.

This method is highly sophisticated and has never been attempted before on Fiverr. With this method, I have managed to make \$297 sales literally EVERY DAY. I have never seen a product out there that is anywhere near this type of level. Once you start taking action with this method, you WILL see results. Imagine seeing \$297 sales popping up in your PayPal account every day just by taking advantage of a buyer community.

Now, I don't want to sell you dreams here and say you'll be able to purchase a vacation home in the next

8 months using this money. I'm not saying you'll be a millionaire using this method but what I can tell you is that **YOU WILL MAKE MONEY GUARANTEED.**

Most people on Fiverr tend to sell what everybody else sells.

Fiverr 'gurus' are always telling you to resell services from SEOClerks for a \$3 profit. I'm not saying that this doesn't work. I've tried this and have managed to make good money from this but the thing people keep forgetting is that it is saturated. Everybody and their dogs are providing this service and it is harder to make sales using it because some seller may provide a higher quantity of the same service for the same price that you are charging. Who'd get more sales?

1. You selling 2,000 YouTube views for \$5
2. Or another Fiverr seller selling 3,000 YouTube views for \$5.

However what we're going to be selling is completely different. In fact, once we get everything set up, it's

virtually a copy and paste method which will generate you leads and sales every day.

Now it's enough with the talk, I'm just going to dive right into it with no fluff and no bullshit. This is going to be a VERY short actionable guide which can make you money literally in the next 24 hours. Are you ready? OK let's begin.

The \$297 per day method

OK, so how will I make \$297 per day? Well my friend, the process is simple. We will sell keyword research.

WAIT; DON'T EXIT THE PDF JUST YET! This isn't your average keyword research gig where you spend hours upon hours trying to find profitable keywords for a measly \$4. This is completely different.

We are going to be creating a copy and paste method using this keyword research gig that you can deliver to your buyers over and over for simple easy \$4 sales.

“Hang on; didn’t you say we’ll be making \$297 commissions using this method?”

Yes, indeed you will make \$297 commissions using the method. You see, this Fiverr gig isn’t our main goal. It is simply a foot in the door plan for us to utilize. We’re going to be making the big profits from the backend.

I want you to answer a question here. Who is most likely to purchase a keyword and niche research gig?

The answer is a beginner who has no website and no knowledge of SEO.

The only people who would buy a keyword/niche research gig are ones without sites and without knowledge of finding profitable niches. That’s why we’re going to help them and make big profits!

Our gig will simply allow us to find these people and then make them hand over more money to us. For those who want to know the exact plan, here’s a quick overview:

- 1). Create multiple gigs targeting keyword and niche research.
- 2). Deliver a Copy and Paste file to them for a simple \$4 sale.

3).After the delivery, persuade them to buy a website service from us.

That's it! It's as easy as 1-2-3.

After we deliver the files, the case is as simple as persuade them to start their own website using the keyword research we have just given them.

Now, how do we implement this all?

Well, read below and find out.

How it is done

To begin with, you'll need a Fiverr account (duh). I'm not going to be explaining how to create an account as it is a waste of my time as well as yours. It's a straightforward process which you'll know how to do anyway when you're on the Fiverr site. Just follow the instructions and you're set.

Once you have a Fiverr account, you'll need to create gigs targeting different keyword and niche research. The ones I highly RECOMMEND are Clickbank niche research and Amazon keyword research.

Clickbank and Amazon are highly popular in the internet marketing community and many people want to start monetizing sites using these programs so this gives us an opportunity to find customers for it.

Below is an image from one of my Fiverr gigs for a profitable Clickbank niche research.

**I WILL FIND YOU A HIGHLY PROFITABLE
CLICKBANK NICHE FOR ONLY \$5**

  

CLICKBANK

- Highly targeted buyer traffic.
- High monthly searches.
- High commissions.
- Upsell/Downsell included.
- Domain availability.
- SEO advice

Also, here's one for my Amazon gig.

A PROFITABLE AMAZON AFFILIATE NICHE WITH EASY TO RANK KEYWORDS

- EASY TO RANK KEYWORDS
- PROFITABLE NICHE
- 5,000 MONTHLY SEARCHES
- HIGH CPC

amazon
associates

As you can see, I just find buyers a profitable niche as well as keywords.

“OK wow this is cool but how exactly do I find the buyer a profitable niche for these gigs?”

Luckily for you, this is all sorted. This is a complete copy and paste system for you meaning you don't need to do any work. Simply send the files in the folder you have received from me to the buyer and that's it! Every single one of my buyers has been satisfied with the service and always rates it 100%. If your buyer orders an Amazon niche keyword research gig, send the Amazon niche excel file to them.

Just follow this method and you'll receive a cool \$4 sale.

The big \$297 sale

OK, so you've taken action and have made an easy \$4 sale copying and pasting a file I have given to you. Now what?

Well now my friend, it's time to make the big bucks! You see, the \$4 sale you made from the gig was a simple foot in the door process. Now that you have a potential buyer with NO WEBSITE and NO EXPERIENCE, it's time to sell them your expertise.

What you're going to do is sell them either an Amazon affiliate site, Clickbank review site or an Adsense micro niche site. Since the buyer has no web presence, it would seem they have no idea how to make a site or monetize one. All you need to do is provide them a professional service stating that you could create a site for them. Here is a message I send once I complete an order:

"Hey 'BUYER NAME',

I noticed you don't have a website. Now that the niche and keyword research is done, you'll need a site to start profiting. I am proposing to make you a profitable site that is on complete autopilot. Once you have the site made, you simply set and forget it and start making commissions. If you're interested in such a site, contact me and I'll help you get started.

Regards,

'MY FIVERR USERNAME'

As you can see from the message I have sent, I have not mentioned the price of the service. Prices may put some buyers off so it's best to tell them to contact you. The ones who reply in regards to the message we have just sent are potential buyers who are interested in the service. 7 times out of 10, the buyer responds back with an interest to the service.

Once this happens, all you have to do is state a price for the site designs. My widely popular price tag for these site creations is \$297 on average.

28 May 2015	[Redacted]	Archive	\$997.00 USD
27 May 2015	[Redacted]	Archive	\$147.00 USD

As you can see above from the screenshot, I am averaging \$600 a week from the backend from selling such sites.

How to create the sites

I'm guessing right now you don't want to do any work using this method which is understandable. I did mention that it's a copy and paste system. In order to make the sites, all you need to do is outsource the site creation to a freelancer on any site including the ones mentioned below:

- **Freelancer**
- **Eance**
- **WarriorForum**

- **Blackhatworld**

You can find sellers who provide services such as this for as cheap as \$100. This means whatever price you charge upwards of \$100 is PURE PROFIT! Imagine making 3 sales a day easily on Fiverr while doing no work whatsoever.

So in conclusion, here's the jist of the method:

- 1). Create a gig targeting keyword research and niche research for Amazon and Clickbank.**
- 2). Deliver any of the files which are appropriate for the sale and make a cool \$4 profit.**
- 3). Up sell a website creation service to the buyers saying that they can have a site that is build on autopilot and requires no work on their behalf.**
- 4). When you have made a sale, simply outsource the work to a freelancer while keeping the profit!**
- 5). Sip a martini on the beautiful islands of Barbados.**

That's all in this guide, I hope you have gained some inspiration and knowledge from the product and will now take action. You can always optimise this method

and tweak it to your likings if you feel you can better monetize it. Remember, you miss 100% of the shots you don't take. If you don't start this method, you don't make any sales.

So exit this guide and take action!
