

Make an

additional

\$100+ per

day

Hi guys, in this little actionable guide, I will show you how you can make an additional \$100+ per day by doing nothing but sending a PDF to the buyer.

Imagine being able to send the work to the Fiverr buyer but giving them an extra PDF which can boost your earnings to more than \$100+ per day. That's what many of my students have been doing and it has been working for a very LOOONG time.

What you're going to be doing is affiliate marketing. Now I know this isn't anything new but many Fiverr sellers forget to use this one simple tip which can potentially boost your earnings to more than \$100 a day by sending a PDF.

To use the method, you're going to need any of the following:

- Clickbank account
- JVZoo account

The method is quite simple. Whatever your gig niche is, you're going to be sending the buyer an affiliate link related to the niche.

For example, if our niche is keyword research, you're going to be delivering their work but before you hit send, you're going to be going to Clickbank marketplace and do the following:

The screenshot shows the Clickbank Marketplace interface. At the top, there's a search bar with 'keyword research' entered. Below the search bar, the results are displayed. The first result is 'Power Suggest Pro: Keyword Research Software (view mobile)' with an average sale price of \$25.42. The second result is 'Long Tail Pro: Keyword Research Software (view mobile)' with an average sale price of \$70.86. Both results have a 'PROMOTE' button and an 'Add To Favorites' button. The interface also shows a 'Results per page' dropdown set to 10 and a 'Sort results by' dropdown set to 'Keyword Relevance'.

[PROMOTE](#)

First you find products related to keyword research on Clickbank. Once you have found one,

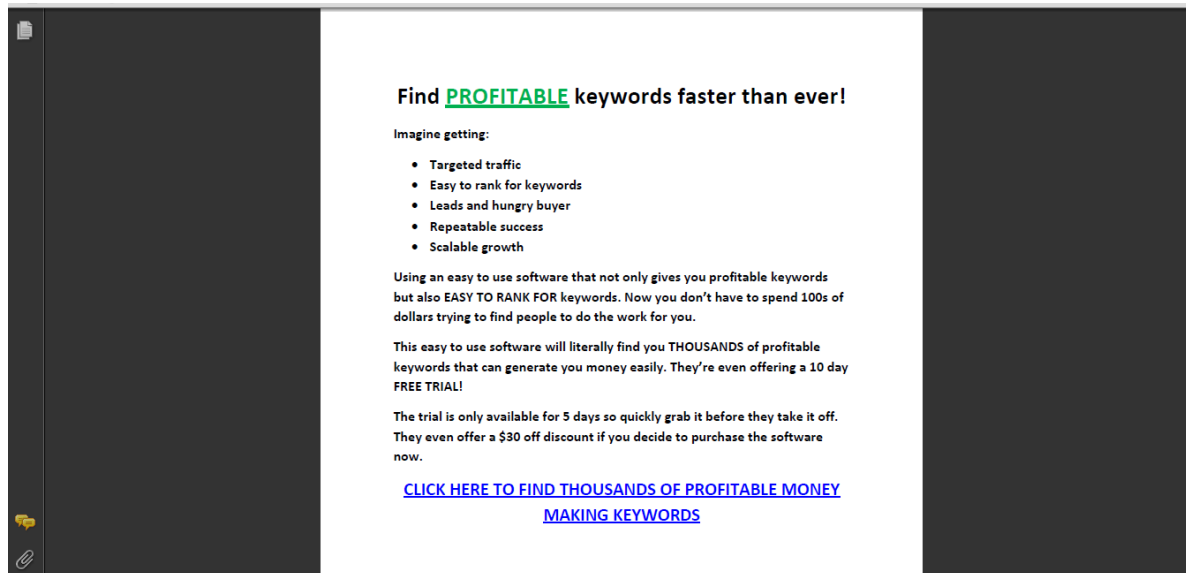

you are then going to be copying the affiliate link (hoplink) and then head over to Microsoft Word (or a free alternative).

Once you are there, you are going to be writing a compelling sales copy persuading the Fiverr buyer to purchase the product. Here's an example:

As you can see, the sales copy isn't that long and has a call to action at the bottom. Now all you do is get the affiliate link and attach a hyperlink to

the call to action. Once you do that, simply save the file as a PDF and the finished product should look a little something like this:

That's all! So when a Fiverr buyer purchases keyword research from you, all you do is deliver their work but also deliver the PDF with your affiliate link. Tell them to check it out and once an order has been made via your link, you'll have commission in your CB account.

Simply rinse and repeat and you'll have an easily scalable \$100+ a day CB + Fiverr method.
