In this short guide will show you a way to earn money very easily using **skype** and **e-whoring**. I will explain every single step to follow for a successful e-whoring session on skype, and I will also release some **good unsaturated websites** where you can find a lot of people who are going to **pay you**.

The method is **very simple**, if you just try it out, I promise that you will make **a lot of money**. You may have already tried some of what will be said in this guide, but I am sure you have made some **mistakes** that you will fix after reading this, so you can finally make a **good income in a short time**.

My earnings for only one day of working...

LET'S BEGIN...

First of all, you will need a basic program, **Adobe Flash Player**. It's the program that will allow you to open **VCW files** without using your browser.

➡ Download link <http://adf.ly/EjbpS>

For those who don't even know what are VCW files, let me explain more.

A VCW – Virtual Cam Whore - file is made with pre-recorded segments of video which you can select with a simple click. In the phases between that, a loop will play so the transition won't be noticed and it will seem realistic. Basically you have your own marionette puppet girl who will obey your commands such as **wave**, **blow kiss**, **flash boobs**, **stand up**, etc...

Here are links for some of good VCW files that you can use.

Opening VCW files is very easy. You just have to **open Flash Player 10** in your computer then **drag** the VCW to it. You will find the VCW file to open in the pack that you will download. It's quite easy. The file to open is has a **.swf** extension.

You can find more VCW files on Hack Forums in the **E-Whoring section**.

Once you open the VCW file, you have now to make your webcam show the video instead of the real capture it usually shows. To do this, you have to download a program called **ManyCam**. It's a free program that's very easy to use. I will show you how.

➡ Download link <http://adf.ly/EjeK9>

The following pictures will show you how to make your camera show as ManyCam.

Please note that I use ManyCam in French, so the **Bureau** is Desktop.

Once you click on the number 3 button, just adjust the grey area with your VCW video and click ok to confirm your choice. And make sure that ManyCam is **selected** as **video source** in Skype. You can check that in your Skype **video settings**.

Now that you have all the required programs, you have to create your girl character.

First of all, you need a **name**. You can choose any name you think about, or you can use the **Fake Name Generator** to have one.

➡ Link <http://www.fakenamegenerator.com>

When you choose the name, make an **email address** using it. Once you got your email set up, make yourself a **Skype account** in order to talk to people through it.

Now that you have done all that make sure you have a **LEGIT PayPal account**, yes I said **LEGIT** PayPal account. Set it as a **business account**. Make sure you name your business

something that is **online related** so if people try charging back you can **dispute back** saying they purchased an online good as game items from RuneScape or a donation.

Once you have done that, go to your email settings on your PayPal account and **add the new email** you just created earlier to it. When you are telling someone to pay you tell them that email to send the money to, and it will go into your **LEGIT PayPal account**.

You can also use many other payment methods, as **Amazon Gift Cards** or [Payoneer](#).

If you want to use **Payoneer**, you have to order your **MasterCard** from them. Once you get it at your address, you have to **activate it** in the website in order to be able to receive payments from people.

After activating your new credit card, making people pay you using it is easy. You just have to ask them to load your credit card giving them this link <http://adf.ly/EjizN>

Make sure that you are **using the email you created before** for Payoneer. Don't give the people your card number to load it. Give them the email to enter in the page and also ask them to **check the first box** for the fees, so you don't have to pay them.

The first payments on Payoneer take about **2 business days** to be approved, but once you use it many times, payments will load **automatically** into your card.

YOU ARE DONE...

You are now done, and you can start the **funniest part** of e-whoring.

All you have to do is to **advertise your girl character** in **websites** and **chat rooms** filled with **horny people** and **pedos**. There are many, but most of them are saturated. Here is a list of sites you can use to find people that will add you on Skype:

<http://www.chat-avenue.com>

<http://www.skyrock.com>

<http://www.omegle.com>

<http://www.xxxchatters.com>

These websites are such saturated in my opinion, that's why I will show you **2 websites** that only few people use to e-whore and where I find **a lot of people who pay me for sex cams**.

<http://www.fuckbook.com>

<http://www.babblesex.com>

For these websites, you have to **create an account**, using the **same name** and the **same email address** you created before. Also make sure **add some pictures** that **do not show face**, because it will be weird to see a girl in the pictures, and another one on webcam.

In the first one, **publish a status** with your **Skype username** asking people to add you. You will have a **lot of adds in a short time**, and you have to **manage the way you talk** to all of them in order to **offer your service**. You can also go to **the chat** to attract people.

In the second one, just fill the **about section** with your **Skype username** asking people to add you. You can also go to the **chat rooms** and ask people to add you on Skype. Try to attract them using these words for example:

“ Hey guys, im a 19 f lookin for some fun on cam... add me on skype if u want... my skype name is - your e-whore skype name - im waitin fo u “

Remember to use **girl's colors** as **Pink** or anything **bright**, and also use **emoticons**.

Make sure to **stay online** in these websites if you are not using the chat, because people usually look for girls that are online in order **to talk to them as soon as possible**.

Once they have added you on Skype, **accept them** and **start a conversation** with them and just act like a girl would. It's easy to do, you can try anything that will attract them more. Make sure to let them know **you are serious** and **do not tolerate immature people** who will ask you if you want to see their cock.

You **must not waste time** with people. You are **the woman**, you are the one with the **vagina**, and you have **what they want**. **Cut them** if they ask to know you more, and don't spend **more than 10 minutes** talking. Tell them that **you charge for sex cam**, and set a **price**. There are **many people who will refuse**, just **delete them** and **talk to others**.

Never let people **pay later**. Ask them to **pay before the show**. **Tease** for them when they ask to and **never do more** than a **tits flash** or **ass shaking**. Tell them that they **have to pay to see more** and that **you will play until they cum**.

If they ask you to watch them, tell **that is not necessary**. **No need to see cocks LOL**. If they persist, **do not refuse**... you have to see that... you are a **female** after all.

You are now making money easily!

If you have any further questions, or don't think it helped or you aren't getting money as fast as you can blink... **HAVE PATIENCE**. It will come. Not all men want to pay for sex.
