Free (unlimited) Instagram followers/likes!

1) The first thing you need is Google Chrome, you can download it HERE

2) We also need to install a proxy VPN, the best one for this method is HOLA, it is a Google Chrome extension, go to www.hola.org and click on 'Start using Hola, it's free' after you have done that, a screen will pop-up, just click add to Google Chrome.

Ok, now you've everything done to get this working, we can start with getting free Instagram followers/likes!

First of all you go to www.followfy.com/free-trial and you select what you want: Likes or followers. You fill in your Instagram username and a email address from www.fakemailgenerator.com . After you have done that, you click the CONTINEU button and you should receive an email to your fake email @the fake email generator. Copy-paste the link from the email in your browser and you should get 15 followers in a few seconds!

Now the part why we need hola, because we want keep doing this!

First of all you need to change your Instagram username (You can change it back later) example: If your Instagram name is JakkieJo you can change it in JakkieJo2 or whatever you would like to change it in. After you have changed your Instagram name you enable Hola by
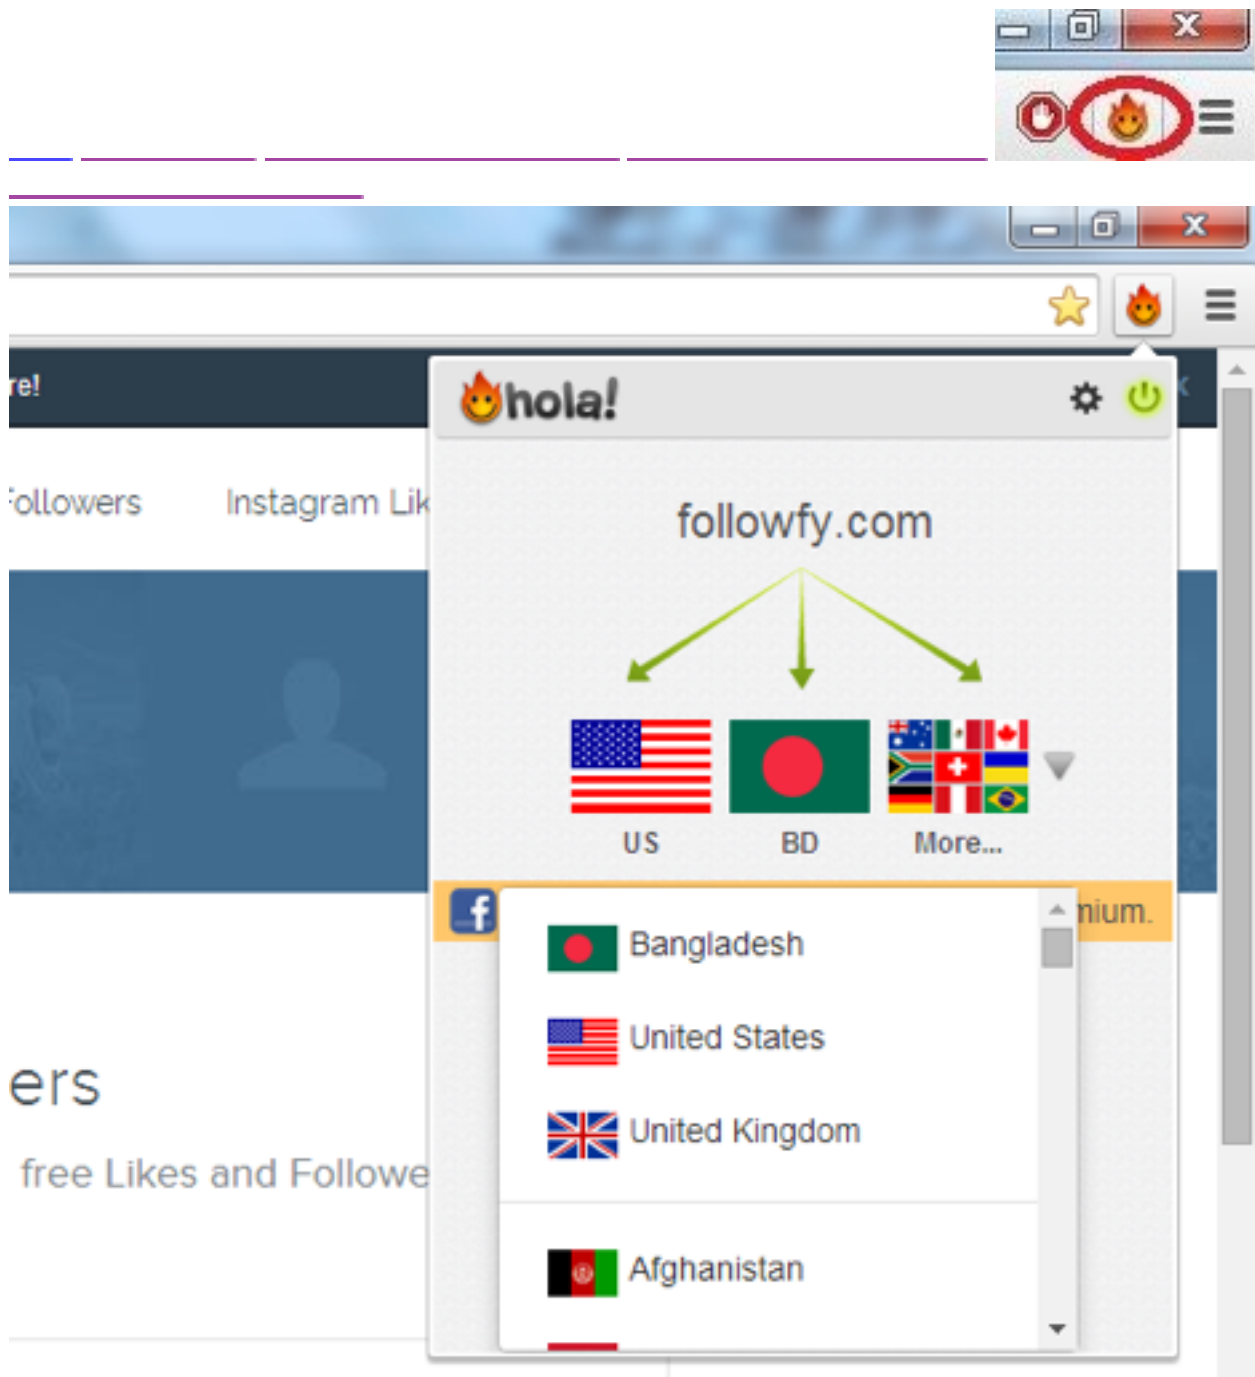

FIRST
going to www.followfy.com/free-trial and activating HOLA by clicking
on this thingy ->

Now you can select a country by clicking on 'More..' and HOLA will use
a random proxy IP from that country, for the followfy website.

Now you just need to repeat all the things like you have done first, select
what you want, likes or followers. Fill your changed Instagram name.
Fill in your random generated email from the fake mail generator and
clicking continue.

You can keep repeating this,
for thousands of followers/likes!
