The screenshot shows the Neobux website interface. At the top left is the 'neobux' logo. To its right are navigation buttons: 'View Advertisements', 'Forum', 'Register', 'Login', and a small flag icon. The main banner features a woman in a pink shirt working on a laptop, with the text: 'Welcome! Now you can multiply your earnings just by viewing advertisements. At NeoBux you get paid just for browsing our advertisers' websites.' Below this are 'more info' and 'register now' buttons. The page is divided into four columns: 'Who can earn' (with a sub-section 'Main benefits'), 'Member', 'Advertiser', and 'About us'. Each column lists benefits and includes a 'Yesterday' statistics section. The footer contains security logos (McAfee, Trustwave, PayPal, Payza, NETELLER), a copyright notice for NeoDev, and links to 'Terms of Service', 'Privacy Policy', and 'Help'.

Now without further ado, let's start earning some cash!

This guide will show you how to earn money on autopilot using [Neobux](#) **WITHOUT** any investments.

What is [NEOBUX](#)?

-> [Neobux](#) is one of the many PTC sites on the internet. [Neobux](#) is a free worldwide service that allows advertisers to reach potential customers by displaying their advertisements on our site and also to provide our registered users a profitability considering to the page access

What makes [Neobux](#) better than other PTC sites?

-> [Neobux](#) is one of the most trusted PTC sites with a high payment for clicks. Many users who have used this site has earned **THOUSANDS** of dollars on autopilot.

How do you earn cash here?

[Neobux](#) pays you cash every time you click on an advertisement. You click on an ad, wait a couple of seconds, and you are then rewarded for viewing it. [Neobux](#) gives you about 25-30 (maybe even more) ads a day for you to view. The amount each ad gives you varies from

(\$0.01-\$0.001). Now, you may ask yourself... "If I click 25 ads that are probably only worth \$0.001, I would only get \$0.025 a day." Well not really, you can actually earn about \$0.08 a day by clicking all the ads.

Continue reading to find out how you can earn \$100 a day on autopilot using [Neobux](#).

Earning \$\$ on Autopilot

When you first start [Neobux](#), you will not be profiting a lot of money until later in the future. This is the method to earning a tremendous amount of money everyday with little work.

(Referrals → Click Ads → You Profit)

You don't need to refer REAL people in order to profit. [Neobux](#) has a system where you can **RENT** referrals to profit for **YOU**.

YOU ARE ABLE TO PROFIT BY FOLLOWING THE STEPS BELOW

Step 1:

We need to first create an account on [Neobux](#) to start using this method. Go to this sites by clicking [here](#).

Click on that link, register, fill out the required information, and you will be ready to use [Neobux](#).

(Once you have registered, feel free to mess around with your profile, fill in information you want to fill in, etc. You might want to fill in your Paypal, Payza, or NETELLER account since [Neobux](#) needs a place to send your future profits to.)

Step 2:

Click on VIEW ADS and start clicking on all the ads to earn some money. The only way you are going to earn REAL PROFIT is through referrals. You need to click on all ads till you're able to rent your first 3 referrals (they cost \$0.60). The ads take 5-60 seconds to complete. It's quick, fast, and simple to do.

REFERRALS:

What is a referral?

-> A referral is a person who has clicked on your referral link and is using the site because of you.

Whenever a referral clicks on an ad, you get part of their money too! It doesn't decrease the earnings the referrals get. It just profits YOU!

RENTED REFERRALS:

[Neobux](#) has a system that allows you to rent your referrals. These referrals didn't click on your referral link, that's why you pay them. You pay these referrals to be **YOUR** referrals. The same thing applies for REAL REFERRALS (except paying them). Every time a rented referral clicks on an ad, you get PART of their earnings as well.

Direct Referrals and Rented Referrals helps profit you. You get part of their earnings every time they click on an ad.

Direct Referrals are the people you referred using your link. Rented Referrals are referrals that you bought to help earn you money.

You can also manage your referral by a **must have** [neobux](#) software. To download it click [here](#). How to use this software you can go to [this](#) thread on [Neobux](#).

Step 3:

This step will show you how to profit using referrals. I mentioned "renting 3 referrals for \$0.60 previously".

You need to get your first 3 referrals by clicking on ads everyday. Once you have a total amount of \$0.60, you can rent your first 3 referrals. (Don't worry, I got my first three referrals the first week I started [Neobux](#). If you get \$0.07 a day from clicking ads, you should be able to get \$0.60 in 7-9 days. $\$0.07 \times 9 = \0.63)

You can get your first 3 referrals by using your earned cash or by investing real money. (I'm using my earned cash, no investments, to rent these referrals.)

By having referrals, your earnings will start to increase everyday.

Now, you're just repeating the steps. You click on more ads everyday until you can rent 3 more referrals. Just keep renting referrals until you hit the max (200 referrals). By that time, probably your referrals alone should earn you at **LEAST \$10.00 a day**. You should then strive to upgrade your account from standard to a gold membership.

A gold membership allows you to have a max of 2000 referrals on both sites (probably more). (Just imagine how much money you will be making with 2000 referrals. \$\$\$). With your already 200 referrals, getting 2000 referrals will be in no time. This will increase your profit from \$10.00 a day to about \$50.00 a day and with ultimate membership you will start to make almost \$100.00 a day.

NOTE: Make sure that you view all the adprize you never know you can win a golden membership instantly so click all those.

\$100.00 a day.

\$700.00 a week.

\$3,000.00 a month.

\$36,500.00 a year. (That's PROFIT)

To earn more just go to the offers tab on top-right corner and then select mini jobs, if a job is available then click on it which will redirect you to crowdflower, if you don't have an account then make it or login to it and read the instructions very carefully and try to complete the job with 100% accuracy because then you will get jobs more often and then you will earn large incomes from completing mini jobs too. You have to concentrate on quality of completion rather than quantity because quality will only lead you to more number of quantity.

In short the more accurate you are the more jobs you will get.

What is Break Even Point (BEP)?

To make real profit you should know your Break Even Point, this topic is created with the intention to help you to know your BEP. If you know your BEP you will know how much average do you need so you won't lose money here, so lets start with some explanations:

AVG: Is when you divide the amount of clicks of your referrals between a certain period of time.

BEP: Is the minimum AVG you will need to at least recover your investment.

Let's see an example:

You rent referrals and as you know they will be with you for 30 days, we need to extend their time before they expire so we don't lose them besides the fact that we pay a small fee for letting them expire. So we need to know how much AVG or money we need to earn to at least recover our investment, so we need to do some calculations:

Referral Price: \$0.20

Referral Click Value (Standard): \$0.005

Days: 30

1.33 will be your BEP, if you can keep this average by the end of the month you at least will recover your investment. That is only for the first 30 days of your referrals, you need to calculate your new BEP when you extend a referral with another formula.

But don't worry, the next boards are going to help you:

The screenshot shows a board titled 'Standard members' with two sections: '1-250 referrals' and '251-300 referrals'. Each section lists durations from 15 to 240 days, with corresponding counts. The counts are highlighted in yellow.

Referrals	15 days	First renting month	30 days	60 days	90 days	150 days	240 days
1-250 referrals	1,333	1,333	1,267	1,200	1,089	1,000	0,933
251-300 referrals	1,467	1,400	1,333	1,267	1,156	1,053	0,983

This is for standard members. Now the next image will show you the BEP of Golden members.

So you should maintain average which is more than **1.33** (for 30 days) to at least make up for your investment.

What is Auto Renew?

-> Auto Renew is an option to automatically renew the referrals according to the chosen preferences.

Is possible to activate and set this preferences at the top of the referral's list page (on the site), where you can find the Auto Pay feature too.

For the Auto Renew, you can set the Limit and the Period.

The Limit is the number of days the referrals will reach to be automatically renewed.

The Period is how many days the referrals will be renewed once they reach the minimum limit.

Note: The Auto Renew feature will be triggered once a day. You must have enough funds in the Rental Balance or in the Main Balance. If there is not enough money, the Auto Renew feature will be triggered again in 24 hours.

Auto renew

Make sure you renew for 150,240days to have maximum profits.

Auto pay:

For standard member Auto-pay off is good.

Note – You should turn off your Auto pay till you get to 100 referrals.

Recycling Strategy:

- Recycle 1-2% of your referrals daily.
- Never over-recycle (recycle too much).
- Read and understand your Break Even Point.

Step 4:

Sit back, watch, and relax as your profits are coming through. You now have a golden membership with 2000 referrals earning for you.

All you need to do though is click all the ads daily. You need to click at least four ads in order to receive earnings from your referrals.

Thank You for reading my eBook!

I've spent a lot of time working on this eBook. All I really ask is that you use my [Referrals link](#). so that I can guide you whenever possible and make you a real earning person.
