## Getting Started

Welcome to RevenueNet, the best eBook currently on the HackForums marketplace! This eBook will teach you how to make a profit using the mobile application "Instagram". You may just be thinking "How can I make money with this? Its Instagram...?" This app is a goldmine waiting to be mined, with all the people on it in rapid want of followers for their accounts they want someone to supply those followers instead of trying hard and wasting time to get them right? The great thing about this is that it cannot be saturated, is 100% legal, and has a lot of money involved. Keep in mind this method involves some investment startup money but once that is invested your profit will be coming in fast and strong.

So now you need to start up a instagram account, download the app on your mobile device or download the program "bluestacks" and get it on there.

After downloading you need to create an account but before that you need a niche, something you are going to base your account around. I prefer a comedy niche as everyone loves comedy and it gets the most attention. There are lots of niches you can use for this. Make sure your name resembles your account something like "bestcomedy posts".

Now that you have your account made congratulations, you have a instagram niche account! **Now you are going to have to invest, I recommend buying followers from any** of these services:

<http://www.hackforums.net/showthread.php?tid=4676915>

After you have bought about \$35 dollars worth of followers you are setup, your account is **almost done!**

Now you need to post about 3-4 pictures (post something related to your niche.) after that, you need to buy likes for each picture, make it active, buy around \$1-2k likes for each picture, it makes your account look legit. Now that you have that done, its time to start selling!

What you are going to do is make a service called "Instagram Gaining Service" on HackForums, you are going to post in this section: <http://www.hackforums.net/forumdisplay.php?tid=263> **The text you post will go something like this (modify it, the higher followers you have the higher the price you charge is.)**

Text:
