

Profit Prime

Thank you for buying profit prime. With purchase you are able to contact me on skype for support.

To get started with Profit Prime I recommend you find some locations that you can sell virtual items. You already have hackforums as one and I highly recommend getting more if you want to be successful. Hackforums alone can bring you in a steady income online if you know what you're doing. I am here to teach you how to do it.

For this guide you are going to learn how to buy something cheap and sell it for more. This may seem like something that is noobie, but it is way over looked. You can easily find someone selling a virtual product and go list it elsewhere for a higher price in order to turn a profit.

First, we are going to talk about selling xbox live. Xbox live is a membership to the xbox live network for xbox gaming. You can easily find membership codes in these places

Some people on hack forums will sell codes in bulk. I also recommend checking out exploits such as the skittles method in order to gain free 7 day trials, which can be sold. You are going to get these codes and bring them to gaming forums. A simple search online can show you many gaming forums where you can

sell these codes for more! You can of course sell them on hack forums too.

Another very good service to resell would be graphics. There are many talented graphic artists on hackforums that you can use their work to re-sell it in the areas listed above. You can find graphic artists here:

So now you're wondering how can you turn this into your own method? Well, all you will need to do is browse things that people are selling on any site and

see if you can find a target audience that would like them on another site. I highly recommend outsourcing services from places like warriorforums, hackforums, and blackhatworld. You can easily go on these sites right now and find something you can sell on the other one for profit.

I recommend trying several services until you find one that is in high demand and people are will to pay the extra buck to get.

Feel free to contact me on skype and we will work together in finding your own niche!
