Without further adieu let's begin learning the Pyramid Profit System!

# Introduction

The way this method works is building up a pyramid of people that work on your team. The more people you have the more you make. In this case quality > quantity though so I am going to show you the system we will be using and how you can build a team to make you profit in your sleep!

We will be using an affiliate platform called 'G2A Goldmine'. The site G2A is a site that sells game keys, memberships, Microsoft points etc... But their affiliate platform is beautiful as it allows you to build a pyramid of people up to 3 levels that you make money off of! They also utilize something I call a super cookie which I will explain to you in just a bit.

Before I get too much into detail you will need to sign-up for the goldmine program:

**Goldmine Sign-up Link:** [https://www.g2a.com/r/goldmine\\_signup](https://www.g2a.com/r/goldmine_signup)

Once you have signed up you will notice the beautiful dashboard and easy to use tool system which I will explain to you. Here is how the goldmine program works. You refer people to G2A.com using your link. Anyone that clicks on that link and makes a purchase will earn you a decent commission. G2A uses what I call a super cookie. This means that if they click on your link a cookie will be stored in their browser. This cookie makes sure you get your commission for a sale even if the person who clicked your link doesn't buy anything for months! But the greatest part is you can generate profits by referring other people to the goldmine program! This creates a Pyramid System of autopilot profit.

# Building a High Quality Team

So here is the basic structure of the pyramid. Here is how this all works. The top level is people you refer directly to g2a.com that then make a purchase. You get 100% of the commission for the sale. The next two levels are people that make purchases from links that your team members send out. So for example let's say you refer your friend Andy to the goldmine program. He promotes his g2a link and someone buys something from his link. G2A will match his commission 60% and you earn 60% of that sale's commission **for doing pretty much nothing**. Then let's say Andy refers Bob to the goldmine program. Bob promotes his link and gets a sale just like before but this time you will get 40% of that sales commission! Now I am sure you can imagine the potential here of having 100, 500, 1000, 2000, even 10,000 people on your level 1 and level 2 teams. **You see the profit potential here!**

Now that you see what we are going for here how exactly should we go about building a large yet high quality team? Let me explain to you my personal methods to make big time profit here.

## Sponsorships

What does every YouTuber and Twitch streamer want? A way to make money playing the games they love. Also known as a Sponsorship and guess what you can offer them one. Imagine how powerful your pyramid would be if you referred 100+ small youtubers with 500-4k subscribers to the goldmine program. Here is all you need to do. First go to the 'Tools' tab in the Goldmine Dashboard. Then make a new link that directs to goldmine so name it what you want but make sure it directs them to [g2a.com/goldmine](https://g2a.com/goldmine). By doing that you will receive credit for referring them to the goldmine program and you will then have them on your team! G2A matches 60% of what they make and pays it to you! Their payments are not affected! And anyone they refer to the goldmine program you get 40% of their earnings as well!

The best way to do this is to send them an e-mail or YouTube message. The key is to sound like a professional company. Also leave them your Skype so they can ask you questions and you can teach them how to promote their G2A link and how they can refer their other streamer/video maker friends to the goldmine program.

# The Professional Touch

What if I told you for between \$5 and 10\$ investment you can appear 100x more professional? Here is all it is, the secret.. is to emulate the company. In other words pretend to be the actual company! How you ask? By getting a domain name that directs to your g2a.com link, creating a business twitter page and a business facebook page. I'll go ahead and show you my personal examples.

**The Domain** – I purchased the domain g2agaming.com, I paid only 4.80\$ for it on GoDaddy. All you need to do is Google a coupon and you can get a domain name for \$4.80 for the year! After I bought the domain I made it redirect to my g2a.com link. I also made a subdomain of the domain (free to do) I made an affiliate.g2agaming.com which directs people to the goldmine I use this link for those I advertise the goldmine program to and I just use g2agaming.com to those I am advertising general game buying to.

**The Twitter** – I made a professional looking Twitter and bought a couple thousand followers to make it look more legit. I spend about \$3-4 on followers from seoclerks.com. Doing this makes you look like a legit business. Later I'll explain the power of having a Twitter and Facebook. But to see an example of my Twitter page it's <http://www.twitter.com/g2agaming>

**The FaceBook** – Same as the Twitter. I just made a professional looking page with my links everywhere. I only spent \$1 on likes for this page. To see what it looks like here is the link: <https://www.facebook.com/pages/G2A-Gaming/1500998560175543>

Just think how much more professional you will appear for such a small investment. I know it has greatly helped me be taken more seriously.

**\*\*Tip** – Also make a g2a business Skype with your link in the profile description. If you want to add mine it's: [G2AGaming \(This will also be the Skype I want you to add for the discussion group/teaching lessons\)](#)

# Promoting Your Link

I've now explained to you how to get people on your team, how to use goldmine's dashboard, and how to appear 100x more professional. The final aspect is now promoting your link and getting those sales \$\$\$.

For more tips and other concepts to promote your link I highly encourage you to add my Skype and join the group lessons! Add: [G2AGaming](#)

## Social Media Domination

People highly underestimate the power of Twitter. People think you need thousands of followers to get clicks on your link. But you can have 0 followers and still get an average of 20 clicks per tweet! How? KEYWORDS. Gamers who are on Twitter (and you'd be surprised how many there are it's a hell of a lot) have their trends tailored to who they follow and what they like.

### Trends - Change

Wilshire  
United  
Smash  
Pokemon  
#LIVESOS  
#HISF2014  
#ImmigrationAction  
#MTVStars  
#WizCavs  
Nate Gerry

If you tweet the word 'dragon age' for example people

Who like and play Dragon Age will see your tweet.

ESPECIALLY when it's trending. If you go on my twitter page

You will notice I always use big name games and pictures

For every tweet I post I see 20+ cookies every time on my

G2A dashboard. **EVEN WHEN I HAD 0 FOLLOWERS!**

Every week select 3-5 popular games that you will tweet

Promotions of. Tweet about it every 2-3 hours try to get

10 tweets per day. I can almost guarantee that you will get between 10-20 clicks every tweet! 10 tweets per day would mean you get about 150 clicks per day! Simple as that!

The week dragon age came out take a look at how I was tweeting every hour. I was doing stuff like this:

I would tweet this exact message for a variety of trending games. I would use different pictures every time and would easily get 20+ clicks on my link FOR EACH TWEET! **WITH 0 FOLLOWERS AT THE TIME 0!!**

Imagine how much more clicks you would get if you built a small following of about 500-2000 real gamers? Simply following a couple hundred gamers every day and unfollowing the ones who don't follow back. Do you see the power here? Oh and what's to stop you from recruiting Twitter pages with 40k+ gamer followers into the goldmine program by offering them a 'sponsorship' I hope you are starting to piece together how powerful this pyramid profit system really is!

The same exact principals above apply for Facebook. But with Facebook you can also make a new account and join a bunch of gamer groups. Don't spam but post something like the tweet I showed above in the gamer groups.

## Next Level Investing

To close this ebook I want to share a small segment on the power of mastering Twitter/Facebook ad campaigns. I recommend doing this after getting comfortable with the goldmine system for about a week or two. But I am not going to go too into depth here but I'll explain the power (also there are ebooks and free tutorials online on how to get the cheapest possible targeted twitter and facebook ad campaigns).

Investing in Twitter & Facebook ads can really take you to the next level of making full time income. Once you test and find out what works for you you'll begin to develop a system in which for example you say for every \$10 I invest on Facebook ad's I get \$16-20 back from G2A. But this takes some time and testing. You'd be surprised how cheap ads are on Twitter and especially Facebook. You can get 1k+ people seeing your message for \$1. Even less if you master campaign management.

Reach ⓘ	Frequency ⓘ	Impressions ⓘ	Clicks ⓘ	Unique Clicks ⓘ	Click-Through R.
<b>3,157</b> People	<b>1.01</b> Per Person	<b>3,180</b> Total	<b>130</b> Total	<b>110</b> People	<b>4.088%</b> Per Impression

As I said earlier I don't want to get too in-depth with the paid advertising as it's a skill mastered in my opinion and it takes testing and of course some investment. But if you are into this you can easily find tutorials and resources online.
