

SexyRevenue - Make \$400+ A Month!

Introduction

Firstly, I would like to thank you for purchasing my eBook. This method is very different and unique in comparison to other typical E-Books that you may have encountered in the past.

It's a very simple, yet effective way to make money.

However, you need to put in some time and effort in order to gain anything.

A relevant quote would be the popular: *"No pain, no gain."*

Prerequisites

Before we start, you will only need:

- Patience
- A computer
- Paypal Account
- Preferably a website (not required)

Step 1: Choose a website

First thing you'll need to do, is find a pornsite where you can find emails.

For example:

<http://chaturbate.com>

Actually, most pornsites will work. Just search for the pornstar on google.

Note: paid sites usually work best.

Step 2: Find a target

This one is really simple, but can require some patience.

With sites that has model profiles, like <http://chaturbate.com>, start looking through the profiles for an email address.

Chaturbate Tip: Use Ctrl+/ to quickly go to next profile.

For other sites, you have to google the pornstar and find their email on their site.

Once you have found one, or many, move on to the next step.

Step 3: Gathering Leaks

One way to do this, is just google for them, and you can usually find a bunch of leaked pictures.

Some google queries you can use:

<porn star> leaked

<porn star> free

<porn star> imagefap

<porn star> rar

<porn star> leaked pics

Another way (blackhat – not recommended), is to take a couple of pictures/recordings of them during their show. If from a paid site, download pictures/videos from the site.

Upload somewhere -> Now you have your leaks.

(I take no responsibility for what you do with this. It is for educational purposes. I cannot stand guilty for your actions.)

Step 4: Sending Emails

For this step, I recommend having a website, but it's not required.

This is where you need to get creative. I will show you a complete template, but you have to mix it up to your preference.

This part requires a bit social engineering skills, but you'll get the hang of it quickly.

Example Template:

From: staff@image.site

To: your@sexy.girl

Subject: Unapproved pictures of you uploaded to our site!
