Go to Hitleap and click on add a new website in "My Websites" tab at the top
Put your blogger website in Website Address (URL)
Set a random duration from 40-60sec to be on the safe side and the traffic source to Anonymous/Direct
Click on "Traffic Exchange" tab in Hitleap viewer program and press the "Start" button

NOTE: I'm repeating this but you only post 3 banners in the website, if you post more they will ban you, they only allow 3 banners per website.

You are now set, go play some games, sleep or do something while it gets your money.

NOTE: If you're not making about $120 per week (Dont worry about it) don't get disappointed and say the method sucks because it is fully autopilot and can be left in the background for you to do other stuff. No need to do anything, no doing surveys, offers, no nothing.

Just sit back and enjoy life.
