1 E-WHORING

This method has to be one of the best working with minimal work. First of all, make a Skype account for yourself 'female based'. Make sure you add a HOT picture in there, but nothing that looks like you pulled it off google.

Next, head over to: <http://www.addmecontacts.com/> and add your Skype name there, make your age 18-20 and obviously put it as female. You should start seeing friend requests from pedophiles near instantly!

I would recommend starting up a (tiny) conversation with them so they know you're not a bot, then just out of the blue, send your file over (directly over Skype) and say 'tell me what you think ;)'. Make sure the stub is called something like 'nudes' or 'pics'.

An alternative to addmecontacts is just giving your Skype away into adult chats. The few I would recommend are:

<http://www.chat-avenue.com/>

<http://www.adultchat.net/chat.html>

<http://www.chat-center.com/adultchat/>

<http://www.chatbazaar.com/free-online-chat-rooms.php>

While doing this, I would also recommend spreading your Skype through Omegle with this:

<http://www.hackforums.net/showthread.php?tid=3819873>

2 CRAIGSLIST

This method works really, really well if you advertise it a lot.

Head over to: <http://www.craigslist.org/about/sites> and find a popular site.

Top 5 Craigslist Cities Based on Traffic

1. San Fransisco, CA – sfbay.craigslist.org – 7.5%
2. New York, NY – newyork.craigslist.org – 6.6%
3. Los Angeles, CA – losangeles.craigslist.org – 5.6%
4. Seattle, WA – seattle.craigslist.org – 3.2%
5. Washington DC – washingtondc.craigslist.org – 3.0%

Once you have selected your site, you will want to head over to the furniture page:

Create your own add, something along the lines of:

"I have this great piece of furniture for sale, very cheap, as I have upgraded. It is in perfect condition, and will suit almost any home! The image is quite big, so for those who are interested, just email me!

Click vacation response and simply set it up with your virus download link! This should get you slaves in no time!

If you want even more slaves, you could find a .jpg spoofer. It would be much more effective!

3 TOOLS

This method could go either way, you could either get a shit ton of slaves, or only a few. What you want to do is, head over to either:

<http://leak.sx/>

<http://consolecrunch.org/index.php>

<http://portalcentric.net/>

<http://www.nextgenupdate.com/>

<http://www.minecraftforum.net/>

Download a high-respected tool from there, bind your RAT to it, and simply repost it to a different site (on the list). Make sure it is binded though, otherwise you won't gain as many and it will be removed, fast.

Taking some time to gain respect on the selected forum will immensely increase the amount of people who download, too.

Also, making your .exe appear better (icon, title etc.) would also increase slave amount!

Also, make sure you make the thread decent with pictures etc.!

4 TIPS & TRICKS

- Don't hesitate to use more than one method
- Create more than one of the thing you're doing. Eg: Multiple craigslist adds, multiple tools, multiple skype accounts.
- Do not limit yourself to just this ebook
- Use a crypter and regularly update your file
- **Spend time making your stuff look legit!**

5 CONCLUSION

These methods are immensely effective, if you put a lot of time into them, the more slaves you get. If one method fails to work, try the next. It's all about trial and error. Don't expect to be getting thousands of slaves daily, it's nearly impossible

BUT WAIT, THERES MORE!

BONUS METHOD

6 YOUTUBE

Again, this is another popular method and is **AMAZING** for getting slaves. So, the obvious thing here is, you will have to think of a niche. If you are after female slaves, 'One Direction' or 'Justin Bieber' music videos work well. If you are after gaming slaves, 'Steam Wallet Generator' or 'Xbox Live Generator' works well too.

Simply steal someone's video, using <http://www.keepvid.com> , add a decent description, and make sure to add lots of tags along with your download link.

For promoting your video, head over to <http://www.u2bviews.com> and start auto-surfing. When cashing out your credits, make sure you enable 'fast views', as this will ensure it gets onto the front page.

FINDING A NICHE

So, you're stuck finding a niche? Well, once you follow this method, it's quite easy, actually. So, to promote your videos, you will use a view site such as vagex or u2bviews, right? Well, so do others! This is where you can take advantage of the view site. Begin surfing videos and take notice of the PPD/CPA ones. Specifically, things like: LoL RP Hack, Titanfall key generator etc.

AVOID THINGS LIKE XBOX LIVE GENERATOR AS THEY ARE SATURATED.

IT COULD TAKE 45 MINUTES TO FIND A DECENT NICHE, DON'T GET ANNOYED OR ANYTHING.
FINDING A GOOD NICHE TAKES TIME

CREATING YOUR VIDEO

You will want to make your video as convincing as possible. DO NOT type things in notepad; that is the biggest red flag you can see. Use a microphone, or get a friend to record it for you.

Alternatively, you could keepvid someone else's video, this doesn't work as well though.

Once you have your video sorted, *you will need to title your video something like this:*

TITANFALL GAME KEY GENERATOR [NO VIRUS] [2014 WORKING]

Use a few shapes like ツ ㊄ 웃 유 Σ ⊗ ㄖ ㊄ ☺ ♠ Ω ♣ ♣ ♣ ♥ ♥ ♦ ♦ 👑 👑 👑 👑
★ ☆ ★ ☆ which can make your video stand out.

For the description, just make a decent description with some tags, such as:

Method 1:

On top of this, make a pastebin with the title of your niche. Such as FREE TITANFALL KEY, in the paste, link your video.

Uploading this to pastebin will get the bin link pretty high up on google, which will add onto the views!

Method 2:

Head over to either Facebook or Twitter. Create a NEW profile. **Make it look legitimate.** Upload a photo etc.

Go to some famous youtube facebook pages. Such as pewdiepie or KSI or something along those lines.

Simply post your video link on the page saying “free hacks blah blah”. This will get you an immense amount of views and downloads.
