Here's how to get money from paypal to cash!

We will be using COINSTAR to withdraw money!

Find a machine near you: <https://www.coinstar.com/coinmachine/>

Here's what the machine looks like.

You go to the machine and you select Withdraw from Paypal. Then you type your email and password associated with the account. Once you type in the amount you wish to withdraw, Coinstar will provide you with a receipt for your transaction, along with a voucher for your cash.

You can redeem this at the Customer Service counter OR checkout.
