Chapter 3: Getting the keys

Chapter 4: Selling the keys

Chapter 5: Making a Steam Gift shop

Chapter 6: Marketing Techniques

Chapter 7: Conclusion

Chapter 1: Summary

In this eBook I will be showing you how to get free Steam Wallet cash, just with a simple method that all you have to do is put in a little work in every day and you will be making about 33% profit from your investments! Later in the eBook I will also show you have to make Steam Gift shop on Hackforums! Let's get started!

Chapter 2: Getting Started

To get started, you NEED the following:

- Paypal account
- Steam account
- Money in your Paypal account
- Time
- A winning attitude
- And most important of all, you need optimism.

Once you have checked and made sure you have all the needed requirements, proceed to register on this forum:

<http://forums.sourceop.com/forum.php>

Once registered on that forum, proceed to make a reputation thread for yourself, do that by creating a new thread in this section: <http://forums.sourceop.com/forums/35-SourceOP-Reputation>

When creating a new thread there, put the title of the thread as “(INSERT YOUR FORUM USERNAME HERE)’s Rep(or Reputation) Thread”. So for example, my username is Nick, my title would be “Nick’s Reputation Thread”

Once you have made the title, you now need to make the body of the post. For the body of the post, just go here: <http://steamrep.com/> and put in your SteamID and press "Search". Once you have done that, you should see a button that says "Copy Info" in the middleish right of the page. Press that, then paste into the body of your thread you are creating. Once you have done that, go ahead and put in what other information you see compliments your Steam account.

This is what my reputation thread looks like:

Nick419123's Reputation Thread - verify the ID64 of this user: 76561198037074411

```
| steamname: Nick  
| steamID32: STEAM_0:1:38404341  
| steamID64: http://steamcommunity.com/profiles/76561198037074411  
| customURL: http://steamcommunity.com/id/pointblank419  
| steamrep: http://steamrep.com/profiles/76561198037074411
```

Over 250 hours on TF2, Over 700 hours on Garrysmod

After a day or so the moderator/admin will approve your reputation page.

What we're going to do is buy TF2 keys from sellers on here, and sell them on the Steam Community marketplace for more, which is about equivalent to over 30% profit!

Chapter 3: Getting the Keys

So once the admin/moderator has approved your reputation page, it's time to buy some TF2 keys!

Go here: <http://forums.sourceop.com/forums/32-TF2-Item-Trading-Buying-Selling>

Make sure you are logged in to the forum. After you go to that page, you will see numerous threads stating they are selling keys and other things. Go ahead and look for one that is reasonably priced, and has a reasonable set of rules as stated in the original post.

Add the person on Steam and leave a reply on his/her thread saying "Added you to purchase keys" or something of that nature, unless the OP tells you otherwise.

Proceed to purchase keys. Right now at the time of writing this book I bought 10 keys at \$1.80 each. Make sure you are not getting ripped off, check other threads also.

Chapter 4: Selling the Keys

Once you have received the desired amount of keys from the seller, here is where you get profit. I purchased 10 keys for \$1.80 a piece, and at the moment the lowest price for keys on the Steam Community Market is \$2.30. So I list them at \$2.40 on the Steam Community Market, and I sell them almost instantly, and I get about \$2.10 after Steam takes their share. So I made about 30c a key, and I sold 10 keys so I just made \$3 in one day, which goes into my Steam Wallet.

Chapter 5: Making a Steam Gift Shop

Over time, I have made about \$30 which is equivalent to about 100 key sales, so I have the \$30 profit plus the original price of keys so about \$210 in my Steam Wallet. Here's when you start to actually make the REAL profit.

Go on Hackforums or your desired market forum, make a thread saying you sell Steam Gifts for anywhere between 10% to 66% off, for example:

Rust right now costs \$20.00 USD, you sell it on your Steam Gift shop for \$15.00 USD. In reality, you still got it for "free" because of the profit you made from your key sales, so you're getting \$15.00 USD into your Paypal.

If someone asks for a game that you don't want to get, I suggest looking on the following sites:

<http://www.kinguin.net>

<http://www.rhinokeys.com>

<http://www.g2a.com>

Or other websites similar to those.

Chapter 6: Marketing Techniques

Let's say you're not having much success selling your Steam Gifts. There are a couple steps you can take to maximize your sales:

- Check your competitors' prices. Are they lower?

- Do you have a thread design? If not, try to invest in one.
- Do you have a signature design promoting your shop? If not, you should get one. It is a great way to promote your shop!
- Does it seem like you're "angry" at your customers, or are not getting the feedback you would like?

These are all ways to help your maximize your sales. ALSO, always treat your customers with respect. Make them feel welcome and appreciated, if you do, they will most likely return and leave a meaningful vouch or something of that kind on your thread.

Chapter 7: Conclusion

In this eBook I have showed you a method on how to get profit with buying TF2 keys for really cheap, and selling them for a profit, then turning those Steam Wallet funds into Paypal cash, which is an extremely easy way to make extra money! I have also helped you set-up your very own legitimate Steam Gift shop, and how to maximize your sales with it.

This is just a BETA version of this book. More updates will come if you have purchased the extended edition. If you purchased the basic edition, each update will cost you \$5.00 USD.

Thank you for reading, and don't hesitate to contact me if you have any questions! Thanks!
