## CRISTIANO RONALDO'S E-WHORING GUIDE

## E-whoring

I assume many of you already knows about e-whoring because it is basically everywhere on the forum. So what's this e-book all about? This e-book provides unsaturated methods that you can use to e-whore.

### First method (Chatroom method)

Basically you already know about this method right? For those who don't know what's chatroom method is. It is where you go into a specific chatrooms then telling pedos that you sell your photos or doing camshows for your rent or any other reasons. This method is over saturated, you can hardly earn money with this method. But this thing still works however you have a 80% chance on failing.

**Here are some chatsites that you can use:**

## Approaching the pedos:

Now that you know some places where to start, I'll teach you know how to approach pedos. Approaching pedos is easy but you have to remember the different rules of the chatroom. For example one chatroom does not allow you to (eg. Spam) or other stuffs so you will not get ban but you can just also use a VPN ☺ (proxies) to bypass the site.

Don't say stuffs like "18/f/UK selling photos for my rent serious buyers only (paypal)" or something similar that's way too saturated. What I do tell them is this "Hi guys! Anyone wants to add me on skype? Yourusernamehere" immediately all the wankers/pedos will spam you or add you on skype. Now when you go on skype (your fake one) there is this feature where you can tell people what does on your mind or some sort (like facebook).

Immediately after I add them to my contacts they will see that I'm selling photos or camshows. You can also use this method if you want to BM (blackmail) someone. This could get you real cash but I won't covering this method because it is not allowed in Hackforums.

Now probably you will get a response from pedo saying that

- Prove to me your real
- Lets meet each other first
- I want to fuck you, I will pay for your rent
- Send me a sample pic first
- I can pay you a plane ticket or other shits that they offer

Here's how I response to each and one of them.

***Pedo: Prove to me you are real***

***Me: Why would I need to prove myself to you?***

***Or.***

***Me: I don't need to prove anything to you. if you don't believe me then please lets end this conversation now. I got offended***

Either the pedo will say sorry or will turn around. If they do apologize you can proceed In telling your story (rent or other shits).

***Pedo: Lets meet each other first***

***Me: I still can't. After I pay my rent maybe we can see each other.***

This gets them every single time. They will mostly ask "how can I help?" then you can proceed in selling photos or cam shows. Sometimes they are just pure bitches they will say that "lets meet first I promise I will pay for your rent" just repeat the above response if they still go wank. Just block them and proceed to another pedo.

***Pedo: I want to fuck you, will pay for your rent***

***Me: Shut up, I'm not a slut. You don't know what I'm going through right now.***

They will either apologize or still go bitching, If they do. Block them and proceed to another one.

***Pedo: Send me a sample pic first***

***Me: Okay, (you send a decent photo)***

***Pedo: No this is not what I want. Send me a nude sample***

***Me: Sorry, but I don't send nude photos for free.***

***Pedo: You can trust me.***

***Me: No, I can't risk anything for free.***

It is alright if they ask for a sample photo. Send them one or two sample from your whore wearing clothes or underwear. If they want nude photos just tell them the following above. If they still keep insisting just repeat that you can't they are mostly will pay for the photo.

***Pedo: I can pay you a plane ticket. (or other shits that they offer)***

***Me: Lol. Please help me with my rent first. After that I can free to go anywhere.***

***Or I can buy the plane ticket for you, I know a place near that offers promo.***

***Pedo: How would I know will you buy it?***

***Me: I can show you a receipt of course.***

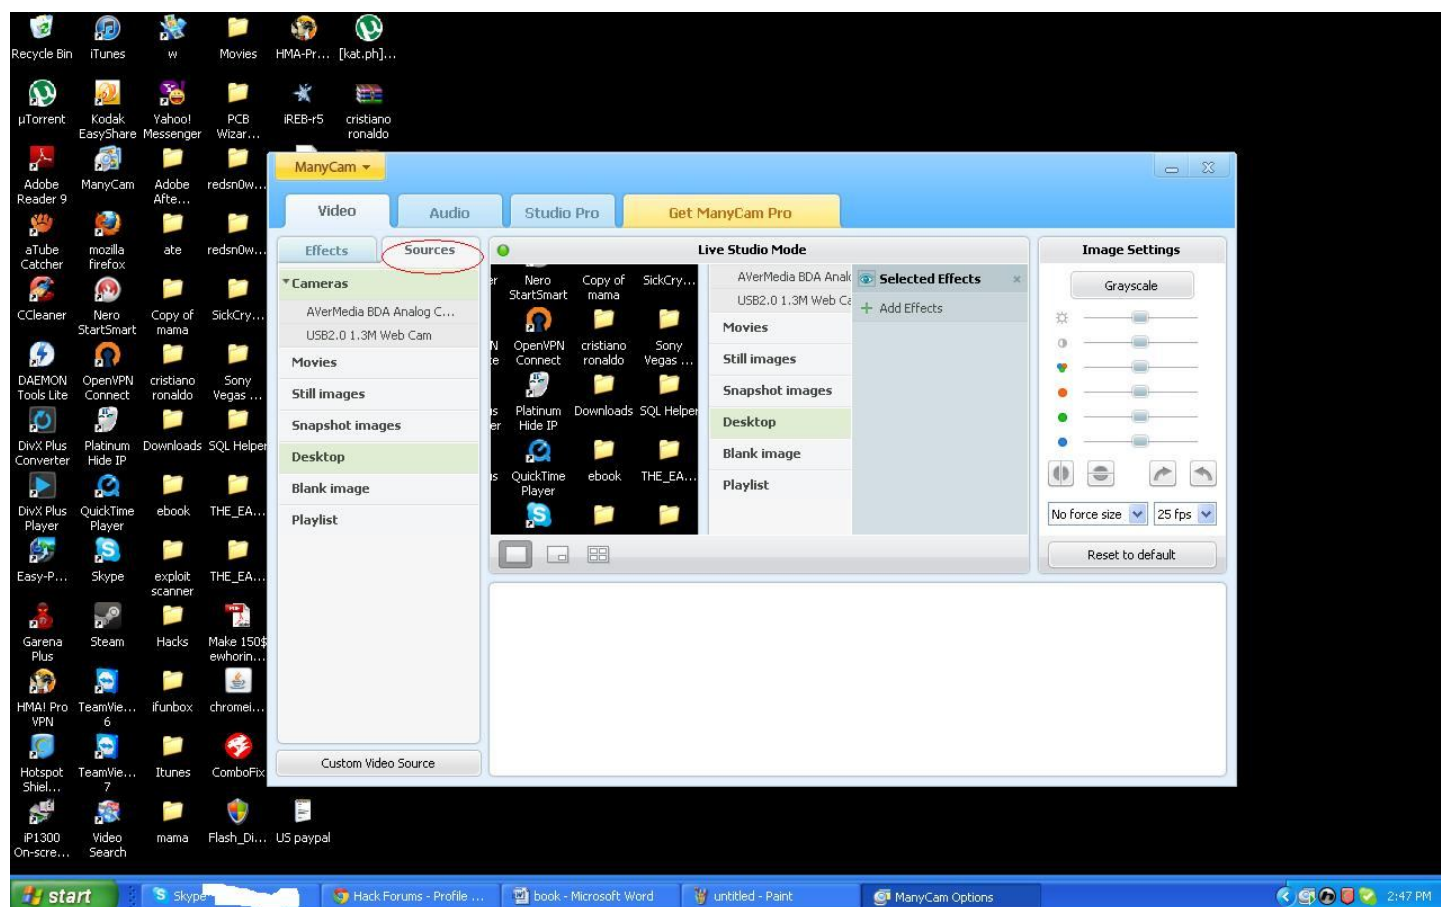

Now this shit is unlikely to happen. But this happened to me once, he almost sent me the money I just got disconnected from my internet and I loss him.

## Setting Up a fake Webcam:

If you have a camshow that you can use but don't know how to setup a fake webcam, here's a short tutorial. Later in the latter part of this e-book I will provide the videos that I used when e-whoring.

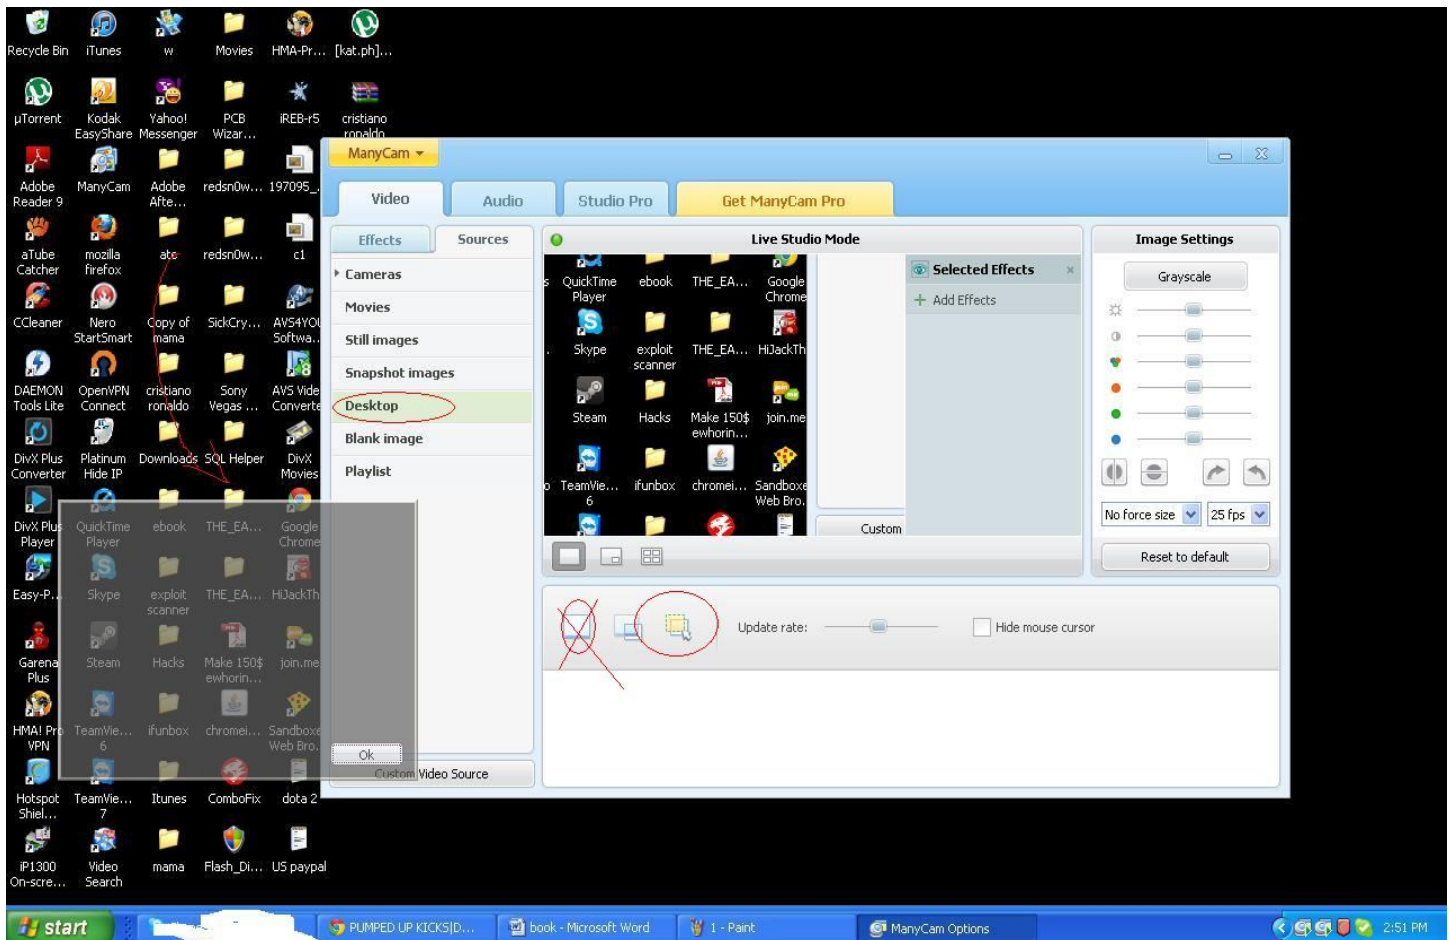

Download manycam at <http://www.manycam.com/>

Install manycam, after installing open the program. Click sources as you can see below.

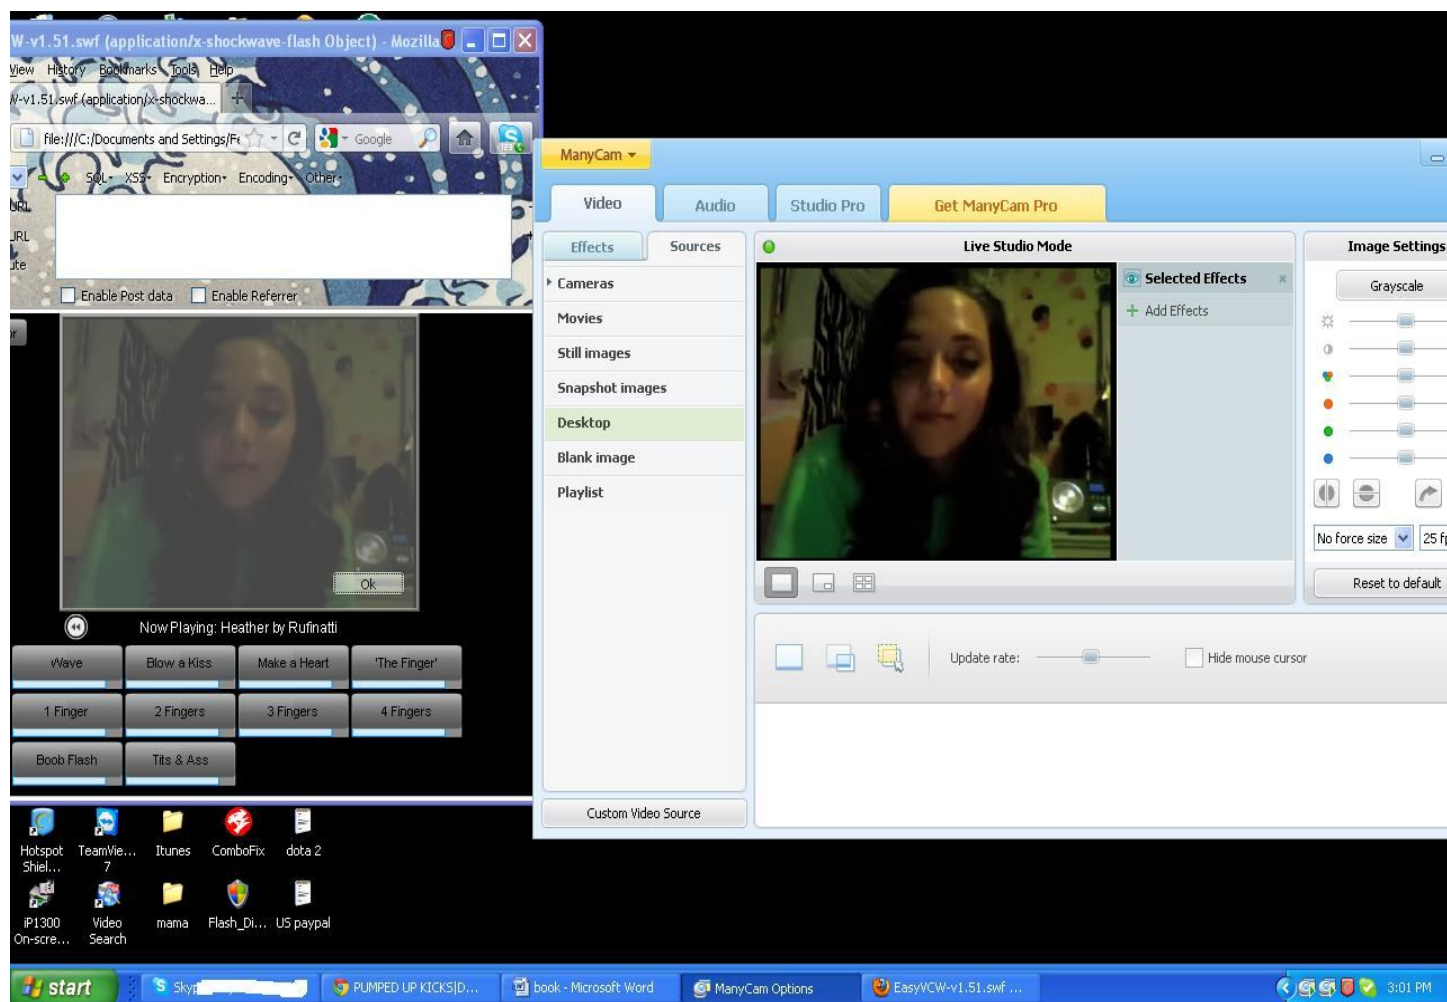

Now, just click the following as shown in the photo. After that you will see that there's a square pop up shit ☹️

After that, you are now ready to put your video and sell them to pedos. The output of will look like

Now just put manycam as your video source in your IM settings and your done 😊

## Craigslist Method

Now this method is also saturated but still works. One of the best method is this. Why? Because it's simply autopilot meaning you can leave it then when you get back you are flooded with pedos wanting to buy your photos (not all the time). I will also teach you on how not to get your ads ghosted.

### How to do this method?

1. Register at Craigslist.
2. Post an ad (Chicago, Los angeles, New York this place is full of money if you know what I mean. You can try also other places to put your ads in.) Experiment 😊
3. Under "what type of posting is this" click personal/romance
4. "Which of these most closely matches what you have in mind?" Click No strings attached.
5. I'am "a woman seeking "a man"
6. Then choose where you want it to be placed.
7. Now in this part you might want to be creative. Say something like "Hi, my name is (insertyournamehere) in need of financial assistance, if there are sugar daddies that are willing to help by buying my photos" i got spammed by many email when I used this line. But be creative so your ad will not get saturated. 😊
8. Now when they ask for samples just do what I told you in method 1
9. Wait until the pedo arrives at your email 😊

### For non-US citizen:

If you want to bypass the phone verification there are some things that you can do:

1. Go to any chat rooms (chat avenue). Find a pedo, ask them if they want a phonesex but they need to give you their phone numbers to see if they are real. Tell them to give you the verification code needed in craigslist and get your ass out of there 😊
2. Google voice (haven't tried it but they said it works)
3. Textplus. This is available in your Idevices, basically it gives you a Canada/US number it can receive text or call.

### How to avoid getting ghosted:

1. It's just simple really, just don't post the same stuffs all over and over again, change IP's, and make multiple accounts. That's how I do it. 😊

## Affiliate Method

The eWhore method starts with you signing up for dating or webcam affiliates. These affiliates provide \$1 payouts for free sign-ups. One such resource for this type of affiliate is at PussyCash.com, where as of this writing, they have \$1 payouts for free signups to the imlive.com website.

After you have signed up for an account and have your affiliate URL, goto a chat site and sign up for an account. You can do a search on Google for the top chat sites on the internet. When signing up, pick a name that sounds like a female name. A good example would be something like "mistylve". You want a name that sounds "sweet", not something that sounds skanky, like "sexybusty", because most guys are aware that this is a fake and they will ignore you.

Next you need to get a domain and hosting. Try to use a domain name that is very generic. Create a subdomain and add a PHP Redirection for your affiliate URL. So when guys enter the subdomain, they will be redirected to your Affiliate URL landing page. Make it so the URL isn't such an obvious indication that it is an affiliate link. For example, a good URL would be: <http://www.yoursite.com/imlive/cindy>.

Now go to an image site like flickr.com or similar and find a photo of a girl to use. Don't get a photo of some girl showing off her body. Find one that looks like an attractive or pretty girl who is just posing for the camera. Take this photo and upload it to imageshack.com. Get the photo URL and have it handy to show guys what you look like if they ask.

Finally, go online into the chatroom and post that you are looking for anyone to chat with. You will start getting tons of private messages asking you for your ASL (Age/Sex/Location). Just chat with one guy at a time until you get the hang of it, then you can chat with multiple users at once to maximize the amount you make per hour.

In the conversation, tell them that you would like to chat via webcam or to use the chat interface on your dating website account (webcam/dating sites are your affiliates from PussyCash). Then provide them your PHP Redirect URL. Tell them to sign up and after they notify you that they signed up, then place the user on your ignore list and move on to another guy.

Their sign up will have generate \$1 for you. Do this over and over and you can make hundreds of \$1 sign-ups.

I'm also doing this method atm. and as far as I know it's great! 😊

## IOS/Android Method

This is the unsaturated method that I was telling you guys. It is autopilot and it can earn you money fast. Even your outside your house with 3G enabled you can do e-whoring anywhere! I earned 600\$ in this method in 1 week. Almost all phones today are smart phones so I know many of you guys have these types of phones. If you have a jailbroken idevice then you have nothing to invest ☺ Likewise if you don't have a jailbroken device you can visit the app store most of them are free anyway.

**What you need?: (IOS users like Iphone, itouch, ipad,)**

1. **Lockdown Pro(Jailbroken, available in Cydia). This app locks the app that you want via password. Why do I need this? Of course you are e-whoring in your phone you must have your pack at your photo album so you can send photos even you are not on your PC. This also protects your photo album against random strangers or your family. You don't want to get caught having porn in your phone right?**
2. **If you don't have a jailbroken device. You can purchase Videosafe. you can put photos/videos in that app and has a password feature. ☺(\$4.99)**
3. **Your E-whore packs of course.**
4. **Chat apps like (whoshere, Localchat, strangerchat, fluvx) most of them are free.**
5. **A wifi connection or if you have 3G then good.**

Now that you have those things, you are now ready to e-whore in your phone!

### Whoshere

This app is the bomb! You can set up your profile like facebook, Due to Whoshere bullshit updates you now must be careful in posting sexy photos, status about selling photos and such. However this method still works like charm. This app can also send photos to your pedos. But this app locates you but you can change the settings so it doesn't hurt you anyway. Also you can change your location in this app so you can e-whore almost all around the world ☺ I usually go to middle-east and e-whore because that place is full of money \$\_\_\$ also arabs like porn so much (IMO) then I transfer again at another place in a week or so.

### Localchat

Same as the above but there are few users that use this app. But I got 60\$ from here so not bad ☺

## Strangerchat

I use this app to find pedos also 😊 it looks like omegle and function as one too. I usually tell them to add me on their skype. After they added me they can see I'm selling photos and other stuffs.

## Fluxv

This app is like whoshere also but the difference in this app is that you are not allowed to change your location. Which is pretty bad well if you do live in US that is good. But you can also chat all around the world.

### For Android Devices:

1. Whoshere(also available in android devices) 😊
2. Match2blue(also same as whoshere)
3. Gallery private(same as lockdown pro/videosafe)
4. Other chat apps 😊

Basically it's the same method, same approach 😊

## Pros and Cons:

### Pros

- You can e-whore anywhere 😊
- You can other things while e-whoring in your phone (Multitasking)
- If you have 3G then you can e-whore even outside.

### Cons:

- If you don't have 3G you have to stick somewhere that has a wifi connection but you can still see the messages that they sent when you open your wifi.
- You can create only one profile in whoshere, Fluxv

I received 300+ messages on a single day!! That's how unsaturated this method is.

## SMS Method

This method is same as method 1 but the thing is it's more of a blackhat method. Why you ask? Because you're basically going to scam them. So what is this method is all about? I will discuss it later but for now you need the following things:

- **Paypal account (you can use your legit info)**
- **SE'ing skills**

Now once you have the following you are now ready for this method. How does this method works? Like method 1 you also need to be in chat sites like (chat-avenue, teenchat, tagged, etc.) You will need to post something like this

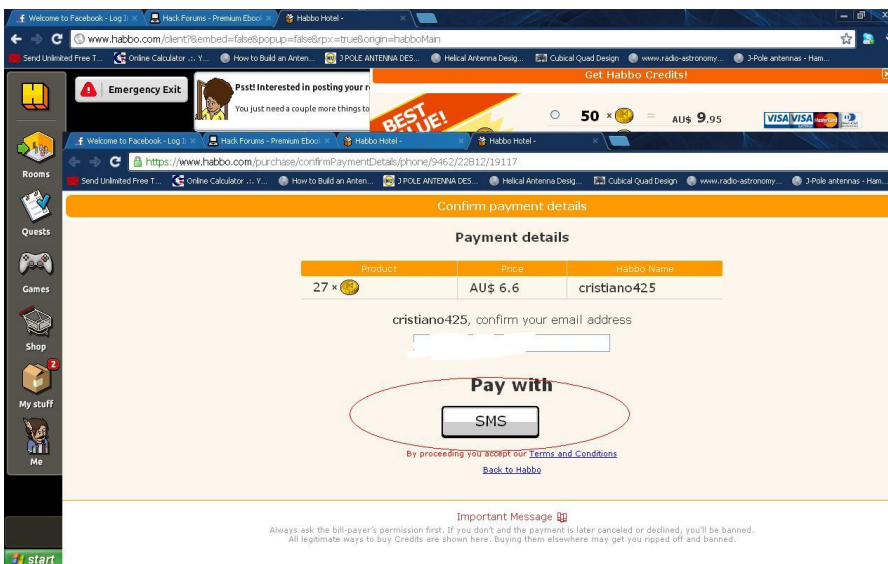

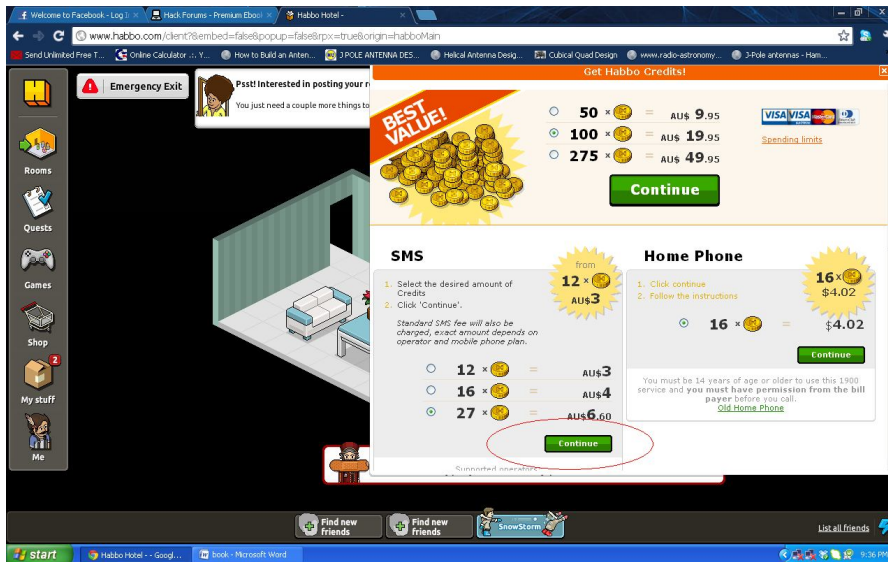

1. **Hi Guys! Do you want some phonesex? I'm really horny right now.**
2. **I need someone to talk to about my ex ☹ Please help me guys. I only need real people here.**

You can also be creative and make your own messages. However, this will do if you are too lazy to think. Now that you have them swarming you like angry cocks, you need to tell them that you have to send them some code to verify that they are real. (sometimes many people will get doubtful but incase that happens you can use this reasoning: "I work for a ringtone company so sending codes is really my basis if the person is real or not"). Once you have their number, you can now use it to purchase stuffs over the internet like virtual items, and what not.

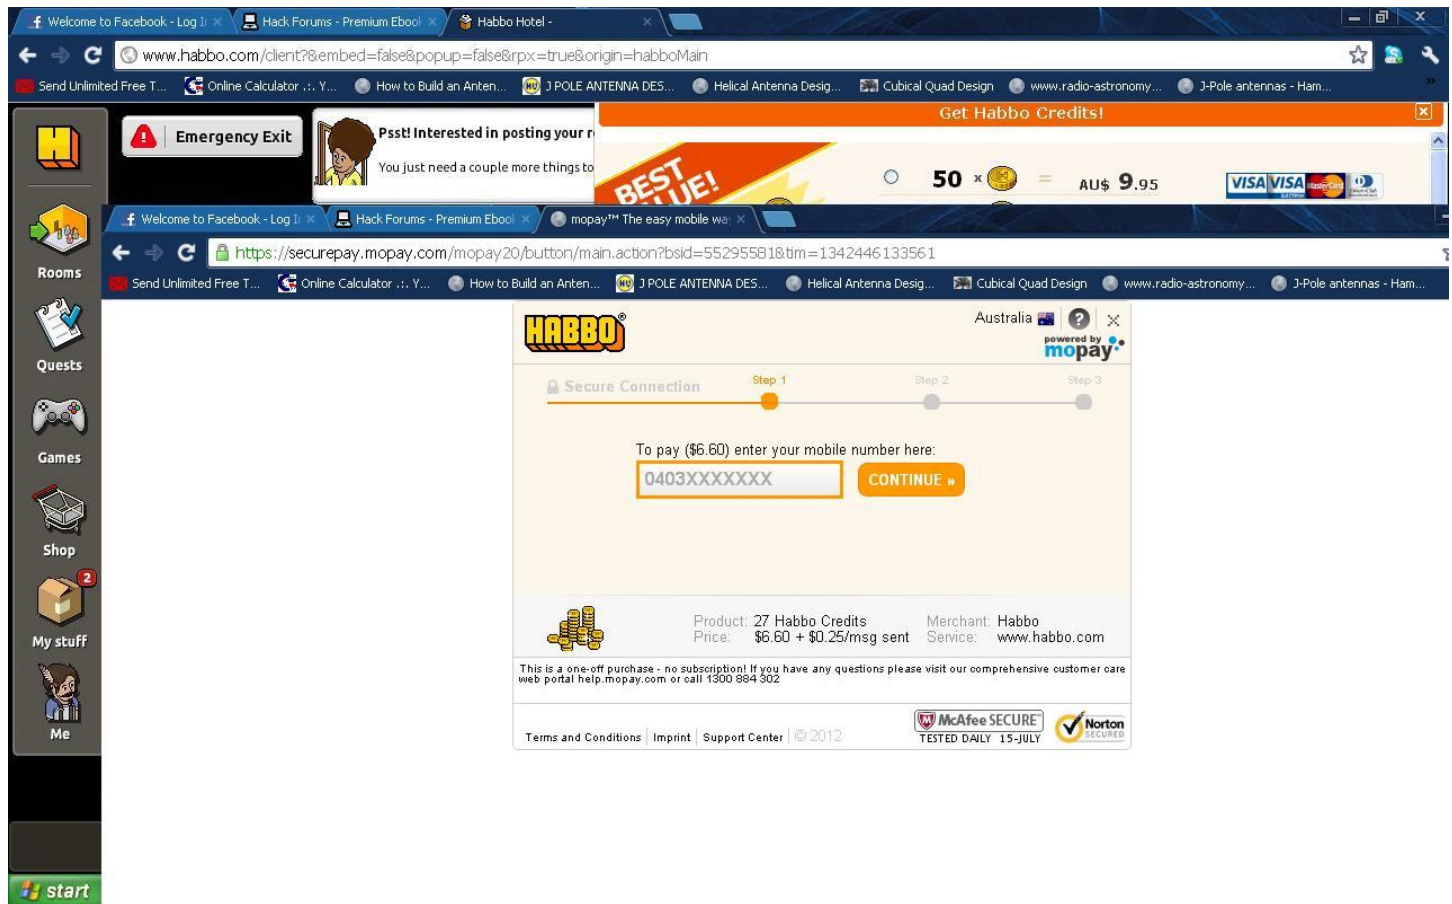

- **Ask for their phone numbers**
- **Purchase some stuffs like habbo credits, runescape memberships, etc.**
- **Block them afterwards**
- **Sell the in-game items over the forums**
- **PROFIT 😊**

## Example: (habbo.com)

This is only an example for you guys, you can do it from other things also like, runescape.

## PPD Method

Who knew that you can incorporate e-whoring and PPD together? You heard it right guys, If you own any accounts to any PPD sites then you can use this method to bank some money on your PPD account. I would not like to make this longer because it's the same as method 1 but this time you're using a PPD. So first of all you need to find a porn video and cut it on 1-2min so it will have a smaller space. After that upload it to your PPD account name it something like "private video with friend" or "my private video". Once your done you can now go to chat sites again.

Say something like:

- Just had a lesbian sex with my friend, what do you think?
- I just had sex and we recorded it on cam!
- Guys, What do you think of lesbian sex?

I know that many pedos will spam you they know that you're not asking for money. Once you got their attention they will mostly ask if you have recorded it, If not you can say it to them like this one

*Pedo: Too bad you didn't got it on video*

*Me: No, we recorded it a while ago. 😊*

*Pedo: I would really love to see it.*

*Me: Okay, but don't send it to anyone. (then you give them link to your download link)*

OR

*Pedo: Can I see the video?*

*(then follow again as said above)*

You can earn really good on your PPD if you use this method. Imagine talking to every guy on chat-avenue asking for video. It would be like (255 X 0.80\$).

## Gay E-whoring

I had recently thinking about new methods that will help us in e-whoring, More like of a unsaturated methods so that we will have our cash flowing in our bank. I have recently thought that “why don’t I try e-whoring on gays?” and yes, just what I thought.. It really works! I must say that gays really pay well but there is a downside on this method. It’s really hard to find a gaysite with many users in it. You can apply this method to the other methods that we have tackled already.

Anyway, I’ll give you useful chatsites to wander around:

Now that you have places to get those gay pedos. You can now start milking them for some cash! Like I said the methods that you will use are the same as you did for the past methods. There is a VCW that is a male I think his name is Chaz? Well anyway you can also use your phones to e-whore. Try searching for apps for your android or Idevices. I used boyahoy on my Iphone and it works perfectly fine. But the bad thing about is that it tracks your location.

So what are your approach? Let me give you some examples on how you are going to start ewhoring with gay guys.

- "Hello! Can anyone help me out? I have some issues to talk about, I can exchange something for your help"
- "I'm Gay and I sell private shows and photos. I can give you anything you asked for" (be careful though going direct means getting banned)
- "I'm gay and I need some Sugar daddies. I'll give you anything in exchange for your help"

As always.. You can make your own statement based on the given examples. That will give you attention over the chatsites. I will post my latest earnings on e-whoring both on both gay and girl.

## Closing remarks

This e-book will make you more money. Also try to experiment with the given methods try searching for different apps so that the apps that I gave would not be saturated quickly.

Method 1 still works, but if you're going to use that method I recommend using a fake webcam that I also taught because in chat sites most of the people wants some moving shits.

Method 2 does also works, if you're going to sell photos I recommend using this method.

Method 3 will also work if you have great SE'ing skills in this method try to sell them your photos but in return they must register in the affiliate site that you are on. So 1\$=60 pedos is equal to 60\$/hr. great isn't it?

Method 4 is the best one for me. Because this shit is unsaturated as fuck, like I said earlier I can get 300+ messages in one day. But I don't want to get it saturated that's why Im selling this e-book

Method 5 is a new way of e-whoring because of the fact that you can use now SMS to buy something off the internet. I recommend buying in-game items like habbo credits and sell them on forums.

Method 6 Use this if you want to increase your PPD downloads. It would really work because pedos basically wants free stuffs. Lol Plus you your chance rate that they will download it is 86%. Pretty high isn't it?

I hope that you learn something new. As always you are not allowed to Resell, Reproduce this e-book without my permission. Thank you for reading this e-book

## Frequently Ask Questions:

**Q: do I need to use a VPN to e-whore?**

**A: no, however, if you can provide it would be great! I'm using HMA (Hide my ass) atm. I recommend investing in this because you can use it in method 2 and others so you can hide your IP if shit happens.**

**Q: why do my paypal keeps getting limited?**

**A: First, after you receive your money let it sit in your fake paypal account for 1-2 days before transferring it. Also when you transfer funds don't do it in shifts. Meaning don't exceed in \$50 if you don't want paypal getting suspicious.**

**Q: Do you have any kinds of support?**

**A: Contact me on HF**

**Here are some of the packs that I used.**
